

YORK COUNTY GOP CONDEMNS SCHOOL MASK POLICY OF THE SHAPIRO – WOLF – FETTERMAN ADMINISTRATION

Throwing sanity, science, individual choice and local school district control under the school bus, the Shapiro, Wolf, Fetterman Administration suddenly and without warning reversed course, mandating the wearing of masks by all school children and personnel regardless of parents' freedom of choice.

“The hypocrisy of this action is monumental,” said Jeff Piccola, Chair of the York County Republican Committee. “All summer long all we heard from these Democrats was get vaccinated and school boards should make the decision on the mask issue. Now without evidence of need and by complete surprise they have ambushed local school boards and parents with an illegal mask mandate. School boards, parents and kids are being used as political pawns by this corrupt administration. Shame on them.”

“The Shapiro, Wolf, Fetterman Administration continues to impose mandates on the freedom of our residents and their ability to self-govern,” said Holly Kelley, Vice Chair of the Committee. “They use any and every excuse they can find to overreach in government and try to control every aspect of our lives. They want your money (higher taxes) and your obedience (socialism).”

The York GOP applauds the 10 Republican Senators and Representatives who represent York County in the General Assembly for immediately taking action to try and overturn the Shapiro, Wolf, Fetterman coup d'état and we support them 100% in their efforts.
