

CAMPUS OUTREACH

Student leaders know what is best for them and their constituents on their individual campus. But, due to the nature of student advocacy, student leaders have a high turnover rate. This allows administrators to wait out student advocates instead of taking action.

The WSA helps to **prepare student leaders with the training and historical knowledge** needed so that when new student leaders are elected, they are able to jump right into the work and advocate effectively for their students.

We provide **professional advocacy guidance and individualized communications development** for our member campuses on specific campus priorities.
