“Baly Ha Na Sponsorship”

2022-2023

The Menu of Opportunities

Dear One Song Enthusiasts, “Giza Fiva” and Baly Ha Na Fans:

We are the edge of some very exciting solutions that will be inclusive, creative, and provide welcoming opportunities for expanding our abundance in a variety of areas. Though it is only one component of the One Song World Project platform, the new feature Film Trilogy, “The Gizas,” will take our original “Teen-Power of Music” conflict-resolution skills building series, to a whole new level of involvement world-wide. This is a teaching model for ALL ages as “It’s Never Too Late,” to catch a piece of your dream, and pass on a positive impact for future generations. These projects and skills are what most of us never learned growing up, and the “Teen at Heart,” is still very much alive.

Our core training will take place as Gandhi’s W.I.P.’s “Tipping Point,” Tour; the most creative and interactive tour platform that unites communities, while helping fund great non-profit initiatives at the same time through our Abundance Games collaborative format.

I don't need to share the obvious challenges we all face right now. I left working as a business consultant in Corporate America in the mid-90's, after the first school shooting at Columbine, to design a program that would reach teenagers that was universal in nature, and provide a format that provided lifelong tools to handle difficult emotions and ways to communicate those; "Power of Music" series was developed as that universal language model. And this has now become the core curriculum and training model for ALL projects we begin, to unify our own team first, and create a focused intention, as well as mutual respect.

In these times, it's obvious we need to focus on what unites us, and the solutions, especially as bringing our own unique piece of the puzzle to contribute to that solution.

Thank you for your loyalty, courage and being your true self in times where authenticity is rare. Let's shift perceptions of what is not serving us, together, by focusing on what unites us.

With gratitude and abundance for all,

Barbara Hughes

One Song World Project's Mission

WHO WE ARE:

A 50-50 partnership between private and non-profit organizations, abundantly and more resourcefully serving ALL of humanity!

WHAT WE DO:

Solve problems common to every heart and every world community at the ROOT level, 12 generations deep, through fun, innovative projects.

One Song World Project is a "Teaching" Platform for Community Unity and Conflict Resolution, inside-out. The founding company for One Song is "Baly Ha Na," whose training model "Playing...the Dolphin Way," provides the necessary skills of "authentic interpersonal communication, heart-art creativity, and joyful collaboration that focuses on the project or product, as our "process" of achieving the end result. It is through clear set objectives, and rewarding the steps or activity, in addition to increased volume, that keeps it focused and fun, and therefore exponentially more successful. In this process, we also "level the playing field" through a custom handicap point system, much like the ones used for Golf. This makes it fair and fun for all to participate. The "process" of all campaigns is to provide skills training, while also holding everyone accountable for their results.

*Our goal with all projects, "A*Fun*A*Bun*Dance World...for All," where it's fun to learn, earn, share, heal, love, create and be. This is what will create "Community Unity" and solve issues that affect us all. By focusing on what unites us we all win!*

HOW we can accomplish this?

*By learning how to **master your use of your TIME-ENERGY-SPACE & RESOURCES**, as an individual, as an organization, and as a community.*

We are OUR OWN untapped potential!
