"Music With A Message"

SONG SPONSOR 2023 PLATINUM LEVEL

Dear Power of Music Song-Sponsor:

Now more than ever, youth and the young at heart, could use the skills necessary to navigate the conflict in our world, starting within ourselves. This program was developed in response to the Columbine School Shooting many years ago, and includes many lifetime skills necessary to manage difficult emotions, in a healthy, collaborative way.

I thank you for your generous support in helping someone, whose life could be positively affected by this program. One life can have a ripple effect on many as we all know.

With music as our universal language at the core, and the way to break down barriers, we pledge our commitment to genuinely listen to each student so they may expand their creative potential, happiness and balance in life. Power of Music students will have these tools and skills to use for the rest of their lives.

Thank you for this opportunity! Please view our Baly Ha Na video on **balyhana.com** for the history and potential of the program as we move forward. And on YouTube/balyhana.

To All Creative Hearts:

You are invited to a unique series that will help bring out the creative spark in you, and use the power of music to unite and heal. You do not need to be musically inclined or have any skill or training. It is simply sharing thoughts on a theme, individually, and as a group, that will turn into a group song lyric. I will be writing the music as your producer as we go along. Then we will record this song in a professional recording studio. And then the series unfolds into infinite possibilities you can choose to continue with.

POSSIBLE FUTURE STEPS:

- Music Release Party
- Music Video with Choreography
- Treasure Hunt
- Rock Opera
- TV-Film Production
