Special Edition Break the Cycle TV

“Where is Home”

This is a brand-new training protocol that is designed to help shift perspectives, and create a place of compassion for not only the person who is going through the trauma of being homeless, but also to help guide that client through the system and manage expectations from the various roles.

*The series will not only provide a consistent code of conduct within the shelter system, but also provide the necessary “**Trauma Training**,” through a variety of coping skills training, conflict resolution training, and overall basic communication portal for not only clients but also among staff, security, client, and community. This is a beginning to finish process, of a journey through the entire system of being homeless, and to address the homeless epidemic, with compassionate conflict resolution outcomes.*

Baly Ha Na’s- True Potential Training-Video Series

Whether you are at rock bottom or still rockin’ there is always another level up. We are here to help you remove the obstacles so you may rise in your own timing and rhythm; not compare yourself to someone else’s apparent success or method. We are all as unique as our fingerprints and DNA. And we are all “One Song.” At TPT we will help you find the harmony and rhythm to transform yourself into your next best you.
