ERNI signs with DigiKey

ERNI Electronics announces new distribution partnership with Digi-Key Electronics

Midlothian, Virginia— April 29, 2021 – ERNI Electronics, Inc. has signed a partnership with global electronic components distributor Digi-Key Electronics.

ERNI Electronics, Inc., a leading international manufacturer of electrical connectors, announced that it has secured a distribution partnership with Digi-Key Electronics to offer its line of robust electronic connectors for a wide range of industries, including IoT, automotive, transportation, aerospace, military, industrial, medical, lighting, communications and instrumentation.

"ERNI values the strong and growing relationships we have with distribution and we're very excited to now be partnered with Digi-Key Electronics," said Bill Knable, president, ERNI Electronics Americas Region. "We look forward to reaching new audiences, those that turn to Digi-Key for quality electronic connectors."

Digi-Key Electronics, which offers the world's largest selection of electronic components in stock for immediate shipment, is headquartered in Thief River Falls, Minnesota.

"The breadth and depth of the ERNI portfolio is one that designers from all industries look to for quality, robust and reliable solutions," said David Stein, vice president of global supplier management for Digi-Key. "We look forward to marketing and making available ERNI's Maxibridge and other surface mount connector solutions to our global engineering customer base."
