

# Retired Females, Looking for a Good Home

These are all favourite girls that have been a foundation of our herd. They are all in good health and are free as long as we know they will be looked after. In fact, we will add one of our breeding females if you will take some of these alpacas on.

***Banksia Park Mangu Bonnie (ET):*** DOB 24/07/2006 [IAR Entry](#)

A real sweetie who will let visitors cuddle up to her. ***Jet black, but going grey now.*** No reason that she couldn't have another cria.

***Rowan Sophie:*** DOB:18/12/2004 [IAR Entry](#)

Another sweetie. ***Jet black, going grey.*** Non-breeder.

***Little Styx Black Pearl:*** DOB: 15/7/2003 [IAR Entry](#)

Not so sweet, a bit of a handful. ***A large Jet Black Girl.*** Non breeder.

***Murragamba Little Cricket:*** DOB: 12/2/1999 [IAR Entry](#)

***Dark Brown/Black.*** Tall and rangy. A real character that will eat out of your hand. Our oldest girl. Non Breeder.

***Tanybryn Molly:*** DOB:18/05/2004 [IAR Entry](#)

***Light fawn (looks white)*** our first alpaca. We don't advise breeding as she always gives birth to dysmature cria. Very strong family bonds.

***Cuesta Ella:*** DOB: 24/03/2009 [IAR Entry](#)

***White.*** Has had a lovely fleece but has been prone to skin problems so we don't recommend breeding although the skin problems are a lot better this year. A daughter of Molly.

***Cuesta Dita:*** DOB: 13/11/2008 [IAR Entry](#)

***Light Fawn (looks white).*** Has had a lovely fleece but has been prone to skin problems so we don't recommend breeding although the skin problems are a lot better this year.

***Cuesta Gamay:*** DOB: 01/03/2003 [IAR Entry](#)

***Jet Black.*** A large girl who always comes to see you, but you don't know if you are going to get the good Gamay or the nasty Gamay. We don't advise getting her pregnant as she becomes the alpaca from hell!
