[Ann Arbor Houses of Worship](#) | [2030 Districts Project Portal](#)

## **DETROIT 2030 DISTRICT HOW GREEN TEAM MISSION**

To provide Detroit 2030 District House of Worship members with tools and resources to reduce energy as well as to create and implement supporting sustainability initiatives and programs.

**Detroit 2030 District  
Houses of Worship Green Team**

---

## ANN ARBOR 2030 DISTRICT GREEN TEAM MISSION?

**YOU DECIDE!**

## **MEETING FREQUENCY**

One meeting every other month (or at the frequency that we decide)

A wooden Scrabble rack is positioned diagonally across the frame, containing the word 'AGENDA' in black letters. The letters are arranged as follows: 'A' with a subscript '1', 'G' with a subscript '2', 'E' with a subscript '1', 'N' with a subscript '1', 'D' with a subscript '2', and 'A' with a subscript '1'. Several other wooden tiles with various letters and numbers are scattered around the rack on a light-colored wooden surface. The background is slightly blurred, emphasizing the rack and the word 'AGENDA'.

## TYPICAL MEETING AGENDA

- Progress Report
- Speakers
- Action Items for Next Meeting

# FUTURE TOPICS

## Green Team Topics

Areas to be covered in this Kickoff and future meetings include:

- Common religious beliefs and values on energy stewardship
- Reasons for making energy improvements to your building
- Quick wins – how to get the best bang for your energy improvement buck
- Funding for HoW energy use improvements
- Monitoring your energy use
- Payback! How do we determine the payback period for energy improvement projects?
- LED Lighting – pluses and minuses
- Solar Panel Funding. Can a House of Worship take advantage of the Federal Investment Tax Credit?

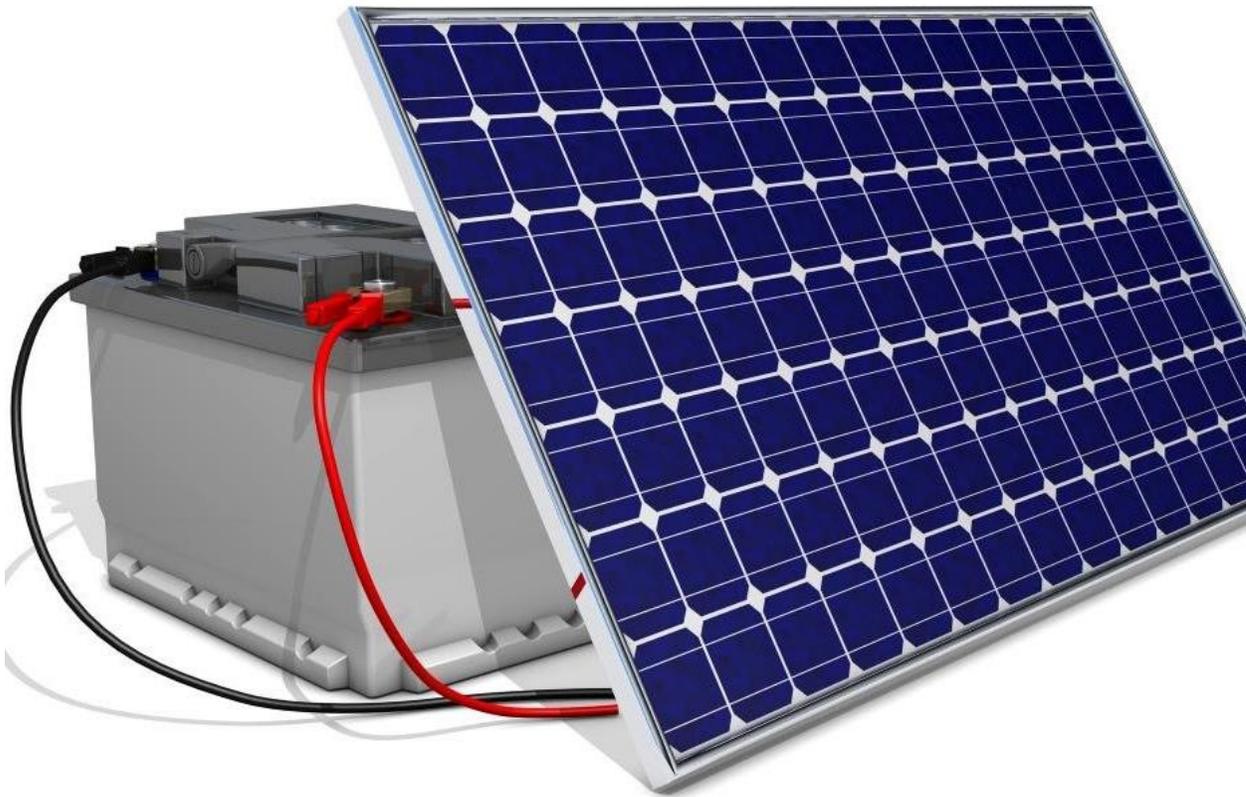

## FUTURE TOPICS

- HVAC systems – energy efficiency versus performance. Can HVAC improvements reduce the risk of COVID-19 infections?
- Heat pumps for Houses of Worship
- Insulation improvements for Houses of Worship
- The process of getting your project approved by your Board / Vestry / Elders. Forming a consensus!
- Saving water
- Recycling and composting
- Water gardens
- Outside lighting upgrades
- Talks from experts and vendors who provide energy saving improvements
- Volunteer opportunities for organizations that support energy stewardship

---

## QUESTIONS

why?  
how? who?  
WHEN?  
Where?
