Why Choose TPx?

When it comes to the future of your business, the road of change goes right through your IT department. Managing technology is no longer something IT has to do alone. Augment your IT team with TPx's experts who are able to install, host, manage and support your communications systems, data storage, back-ups, security and other services, giving you the expert partner you need to keep up with the needs of your business.

We solve the biggest IT issues — cybersecurity, connectivity, and collaboration — under one umbrella
We have 120+ certifications across 60+ competencies, like CompTIA, Cisco, Fortinet, AWS, SMC and more

We have the IT solutions, staff and experience you need for effective results within your budget

We provide enterprise-class and 24/7 support for ongoing, proactive support tailored to your business

We mix and match to deliver a variety of service levels customized to your needs, including managed and co-managed options

With 18,000 clients in 49,000+ locations, we're big enough to get the job done and small enough to be agile

"I've always loved TPX. Have been with them for over 10 years and their CS is top notch. I've also worked with their engineers and project coordinators without a hitch."

—Mike Verances, IT Director
