

Age-Friendly North Jersey

AN ALLIANCE OF LEADERS STRENGTHENING COMMUNITIES FOR ALL AGES

Age-Friendly North Jersey is a growing network dedicated to making the communities where we live, work, and play better for longer, healthier, and more equitable lives. Our alliance supports age-friendly leaders who are doing the work of strengthening collaborations for meaningful and sustainable community impact.

We are led by local philanthropies and the Rutgers School of Social Work. As of May 2021, our alliance included leaders from 16 age-friendly community initiatives in Bergen, Essex, Morris, Passaic, and Union counties in New Jersey.

Our Strategies

- Collaborative learning
- Coordinated advocacy
- Networking with local experts
- State and national connections
- Grant funding
- Research-based trainings
- Data sharing
- Peer support & mentorship
- Regional evaluation

Our Impact

"The opportunity to network and share ideas with other age-friendly community leaders has had a lasting impact on the Generations for Garfield team. The alliance gatherings foster a stronger sense of connection and engagement. By sharing our stories and achievements, we motivate each other to turn our cause into a movement!"

Darleen Reveille
Public Health Nurse, City of Garfield

Our work supports members in many priority goals, such as:

Enhanced Information & Communication

Making Older Adults More Visible

Promoting Safe Mobility

Reducing Social Isolation

Connect with us!

We welcome connections with individuals and organizations at any point on their age-friendly community journeys. Whether you are just thinking about getting involved or are already engaged, and regardless of where you are located, we invite you to connect with us.
