

Peck Park

The playground sits in a nicely wooded area next to the baseball fields. The equipment needs replacement, as it is aged and deteriorating. The park is used regularly by the neighborhood and greater community.

Peck Park

View 2

Playground equipment to be replaced with a new compliant structures and benches. In addition to what is shown, musical elements can be included for sensory play. The tree stumps will need to be removed from the playground area.

Mega Deck Upper Deck

PCM111831

Item no. PCM111831-0901	
General Product Information	
Dimensions LxWxH	21'3"x15'9"x15'5"
Age group	5 - 12
Play capacity (users)	29
Color options	

The Mega Deck with Upper Deck attracts a multitude of children to play together, for a long time, again and again. It is roomy and sturdy enough to facilitate parents and caregivers that join their children in play. The unit offers a wide variety of activities as well as graded play accesses: varied climbing outside as well as inside the structure add to the joy and train the

children's spatial awareness, proprioception, and muscles. These motor skills and muscles are all important to navigate the world securely. The many ground-level activities add areas for socializing and quieter play. From the various upper levels, great views, as well as varied gliding and sliding, offer a thrilling ride. This is what makes children loop the play unit again

and again: up the unit and down the slides.

Tipi Carousel w/ Top Brace

ELE400065

Item no. ELE400065-3717GR	
General Product Information	
Dimensions LxWxH	3'11"x3'11"x3'10"
Age group	5 - 12
Play capacity (users)	8
Color options	

WOW, a spinning TIPI! The whimsical shapes of the TIPI carousel with top brace attracts children in its own right. And they will play here again and again, thanks to the multifunctionality of the slick TIPI. Responsive to children's movements, the TIPI spins when pushed or pulled. Apart from being a fun negotiation and turn-taking game, the pushing

and pulling build muscles and cardio. In the TIPI children can lie, sit or stand with the support of the side bars or the top frame. This welcomes children with mobility disabilities to be part of the play, too. The spinning movement trains the sense of space and balance. The sense of balance is fundamental to all other motor skills and is important for

motor control, for instance being able to sit still or cycle securely, without falling. The TIPI facilitates universal, inclusive play: It's good fun!

Tipi Carousel w/ Top Brace

ELE400065

Top frame

Physical: support for standing, gripping, and training the sense of balance when spinning.

Social-emotional: supports standing for more children at a time. Adds support and a feeling of security for children with mobility impairments or disabilities.

Three side bars

Physical: support for gripping, pushing and pulling, training muscles. Back support for seating, also for children with mobility impairments or disabilities.

Social-emotional: supports seated positions for more children. Facilitates social interaction between inside and outside, when children spin each other. Facilitates use from outside of Tipi Carousel, and turn-taking.

Spacious platform

Physical: allows for more body positions: sitting, lying, standing, which facilitates use for children with physical disabilities.

Social-emotional: facilitates many children using the Tipi Carousel simultaneously, supporting cooperation and turn-taking.

Shallow entry rim

Physical: support for entering and staying in when spinning. Eases entry for children with a range of mobility abilities.

Social-emotional: feeling of security when children lie or sit in Tipi Carousel. Provides a secure feeling for those seated when spinning.

Rotation

Physical: pushing or pulling into motion, children use their muscle strength and exercise their cardio. The rotation increases a sense of balance and space when enjoying the ride.

Social-emotional: listening and negotiating how slow or fast to go, children develop their empathy and cooperation skills.
