51 High Street  
Bristol, CT 06010

Re: **Renovations & Improvements at Page Park | Contract Amendment #2 for Wetland Consultation**

Dear Dr. Medeiros:

Thank you for the opportunity to submit this amendment to our contract for the renovations and improvements to Page Park. During the local regulatory review process the city's Wetland Commission required that a wetland scientist review and approve the wetland mitigation planting plan.

The scope of services for this amendment include having a wetland scientist review the plans to determine if the proposed hydrologic inputs, grading, topsoil, plantings, and details/notes are compliant with the intended mitigation and meet the federal and state requirements. The wetland scientist will provide recommendations to the mitigation plan if it is found that the proposed mitigation may be deficient in providing a viable wetland mitigation area. Such recommendations may include relocating hydrologic inputs, regrading the mitigation area, and preparing cross sections and notes/details. Once the recommendations and plan modifications are completed, the wetland scientist will review the final mitigation plans and prepare a letter that confirms that the proposed mitigation and associated plantings are compliant.

To complete the Professional Services outlined above, we propose a lump sum fee of **\$6,050** as an amendment to our current contract. This estimate is based on our current understanding and knowledge of the task. Should this effort require additional review and revisions by the regulatory agencies that would modify this estimate, we will notify you promptly.

We appreciate this opportunity to continue to serve the City of Bristol. If you have any questions, please don't hesitate to call.

Very truly yours,

WESTON & SAMPSON ENGINEERS, INC.

Cheri Ruane, FASLA  
Vice President | Landscape Architecture

Ryan Chmielewski, RLA  
Team Leader
