Burns, blisters and / or scarring are a potential risk of moxibustion and / or heat lamp. Bruising of cupping therapy, (which is often required for a better treatment effect), is a common side effect though only lasting hours or days, blisters occur occasionally. Highly unusual risks of acupuncture may include infections, nerve damage, and organ puncture.
3. I understand that the clinic uses sterile disposable needles and maintains a clear and safe environment.

Informed Consent to Herbal Remedy/Supplement:

I understand that it is my responsibility to inform my treating acupuncturist if I become pregnant or suspect that I am pregnant before each treatment begins.

I do not expect the acupuncturist to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on the acupuncturist to exercise judgment in my best interest during the course of treatments which are determined based upon the facts clearly presented to the treating acupuncturist prior to treatment. I understand that results are not guaranteed.

I understand that all of my records will be kept confidential. I authorize the acupuncturist or the clinical staff to release information as required by my physician for the purpose of treatment, and to my insurance company and its agents to secure my insurance benefits, and to my attorney for the legal reason.
