

# Large Diameter Pipe Rehabilitation Webinar

<b>8:00-8:05</b>	Introduction presented by BMC
<b>8:05-8:45</b>	Advanced Pipeline Assessment Using Autonomous Technology & Sensors (Sam Cancilla)
<b>8:45-8:50</b>	Intermission
<b>8:50-9:20</b>	Drone Inspection for Large Diameter Sewer (Glenn Fowler)
<b>9:20-9:25</b>	Intermission
<b>9:25-10:05</b>	Large Diameter Sewer Cleaning (Joe Schotthoefner)
<b>10:05-10:10</b>	Intermission
<b>10:10-10:50</b>	CIPP Onsite/ Over the Hole Wet Out (Lou Krch)
<b>10:50-10:55</b>	Intermission
<b>10:55-11:35</b>	Large Diameter Rehab Using Bespoke Structural GRP Lining Systems (Andy Sherwin)
<b>11:35-11:40</b>	Intermission
<b>11:40-12:10</b>	Internal Joint Seals for Large Pipe (Jeremy Kieninger)
<b>12:10-12:40</b>	Q&A Session 1/ Lunch
<b>12:40-12:45</b>	Intermission
<b>12:45-1:25</b>	Applied & Bonded Epoxy Lining: When to Use in Large Diameter Pipe (Michael Caputi)
<b>1:25-1:30</b>	Intermission
<b>1:30-2:10</b>	Use of FRP Composite for Pipe Rehab (Firat Sever)
<b>2:10-2:15</b>	Intermission
<b>2:15-2:55</b>	Applied Cement/ Geopolymer Rehab for Large Diameter Pipes (Drew O'Connor)
<b>2:55-3:00</b>	Intermission
<b>3:00-3:30</b>	Sealing the Lateral Connection of Large Diameter Mains (Jason Mathey)
<b>3:30-4:00</b>	Q&A Session 2/ Closing
