

AN UPDATE FOR CATHOLIC VOTERS FROM CATHOLIC VOTE

Dear Catholic Friends,

A lot of people are asking me:

“What does CatholicVote do now?”

“Have you finally been able to rest?”

Here’s the truth: I wish! But we haven’t slowed down one bit. Our work didn’t stop on Election night, and it’s not likely to slow down anytime soon. That’s because our success on Election Day created one of the biggest opportunities to transform America in decades – if not ever.

Our nation needs a LOT of fixing – that’s what you voted for. If we slow down, or stop now, every effort, donation, text, phone call, and prayer...all goes to waste.

RIGHT NOW, Catholics have a once-in-a-generation opportunity to bring real reform to every agency in our government.

CatholicVote is leading the way, working directly with senior members of the new Trump administration to influence personnel, policy, and planning.

Like what?

- Help us promote key personnel under consideration for leadership positions across the entire new administration – including agencies tasked with policies that will shape freedom of Catholic medical care, schools and charities, the sanctity of life, family-first policies, foreign affairs, housing and poverty programs, and more;
- Prioritizing the need to protect Catholic churches and pregnancy help centers that have suffered a wave of violence since the Dobbs decision;
- Working to influence the Make America Healthy Again (MAHA) agenda to include policies that protect families from unjust vaccine mandates, taxpayer funding of abortion, conscience rights, and exploitation of children by the “trans” industry;
- Pushing for justice for those unfairly targeted by the Biden-Harris Department of Justice for their peaceful pro-life witness;
- New legal action at both the federal level and in the states to hold Big Abortion accountable

Think about it this way: winning an Election is just step one. What happens next is the reason elections matter. Stopping Kamala Harris was a huge victory. But it’s time to stop thinking defensively.

It's time to go on offense.

School choice for all. Ending DEI in our military. Massive tax cuts or credits for American families. The list goes on...

This isn't a dream. We can make it real!

During the election, we were able to recruit over 5,000 LOOP readers to volunteer across 9 states, and staff over 400 Catholic-to-Catholic voter contact events.

Can you imagine if the LOOP doubled our reach in the next two years?

And get this: new data released this morning shows that Hispanic voters shifted a whopping 29 points between 2012 and 2024. The realignment is real. With your help, we plan to double down on everything that worked this past year, with a special focus on capitalizing on the huge shift occurring among Hispanics and in America's major cities.

DON'T FORGET: Catholics helped deliver a historic victory to Donald Trump and J.D. Vance.

This is no time to rest on our laurels.

President Trump is preparing the groundwork to unleash his America First agenda on Day 1 – starting January 20.

He knows the window of opportunity could be small. Last time it was obstruction in the Senate and the Russian hoax. Then it was George Floyd, BLM, violence, vandalism, and COVID.

I cannot stress this enough...

The momentum is on our side.

It's time to seize it.

If you thought we were done, you ain't seen nothing yet!

Brian

P.S. If you thought your donations were important during the campaign, they're even more needed now.

Let's not stop now. I need your help to turn the Election win into permanent victories for our Church, for our Faith, families, and our country.
