

Michigan Drop Box Project

On September 30, the Count MI Vote Education Fund (from the Voters Not Politicians group) launched MichiganDropBox.com, a statewide search tool that allows voters to find the appropriate secure drop box (or drop boxes if there are multiple) where they can return their absentee ballot.

This election, it's critical that Michigan voters are able to easily locate the correct secure drop box so they have confidence that their ballot will be received in time and that their vote will be counted.

The greatest barrier to absentee voting is voters' concerns that their ballot may not be received on time and won't be counted if they return it by mail. More Michiganders will vote absentee if they are confident their vote will be counted. **The Michigan Drop Box locator project encourages absentee voting by making it easy for a voter to drop off their absentee ballot in person knowing it will be counted.**

This tool was tested and proven to provide voters an easy-to-use process to accurately find a secure drop box. With partners like All Voting is Local, our goal is to help voters cast their ballots and to support a safe and secure election in Michigan.

Take a look and see how easy it is to use, and share with anyone you know who might need to find their drop box in Michigan.
