

To request COVID-19 related signage please follow the procedure below:

 Review attached catalog of available signage options (page 2 and 3). The signage sizes are fixed to a predetermined size. The size is indicated in the poster title. Example: Hallways_PP_20x30.PDF is a 20x30 sized signage.

Please note: The signage size denotes the available and recommended substrate mounting. Please refer to the chart below:

	Decal _c Interior Display	Foam Board (IN) Interior Display	Sintra ^{DR} (EX) Exterior Display
10x12	X	X	
11x16.5	X	X	
20x30		X	X
36x48		X	X

- 2. On the attached Reprographics Request form (page 4) include:
 - Complete poster title for each requested signage
 - Quantity for each signage
 - Indicate material substrate for each signage, referring to table above for available options.
- 3. To process your request, you must have access to the Department's network and:
 - Create a new folder on the Reprographics' Server, using YOUR NAME as the folder title: \\filer03\igprintshope\PrintShop\REPROGRAPHICS_DEPT_ROOM_B7C
 - Open the signage directly at: <u>\\filer03.joint.ladwp.com\PublicAffairs2\COVID_signage</u>
 - Copy desired signage files. DO NOT DELETE OR MOVE THESE FILES.
 - Paste them into the NEW folder that you made on the Reprographics' Server
- 4. To start your job, please be sure to complete the request form, including a charge number and contact information; and submit the form via email to Luis.Alderete@ladwp.com

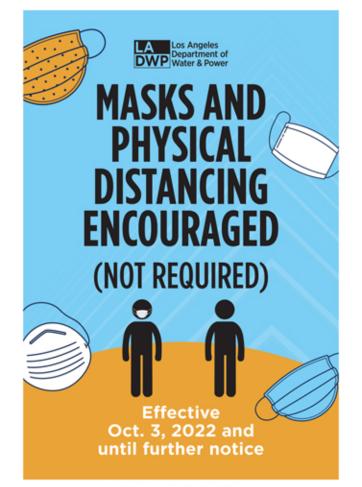

Once your request is complete, Luis Alderete or a member of Reprographics will notify the provided contact that signage is ready for pickup.

5. If after reviewing the attached catalog of available signage, you determine that none of the available options suite your particular facility needs, please send an email to <u>Michelle.Figueroa@ladwp.com</u> requesting unique or modified signage.

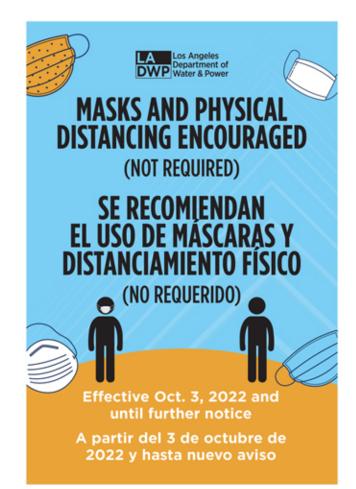

Signage has been designed in compliance with LADWP Department branding guidelines and health and safety language requirements. **DO NOT ALTER ANY SIGNAGE BY ANY METHOD.**

If installation assistance of exterior signage is required, please contact Gary Arso & Walter Veljacic after you have been notified that signage is available for pickup.

Due to high volume of request, there may be some delay with completing your signage needs. **Your patience and cooperation is greatly appreciated.**
