SWITCHING ON

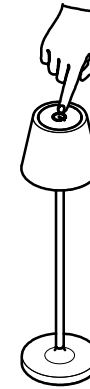

Tap the touch sensor to turn on the lamp.

DIMMER FUNCTION

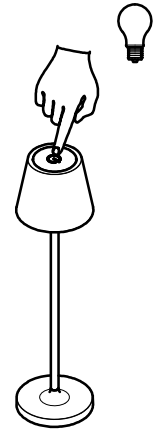

While the lamp is on, hold the touch sensor to adjust brightness. Release to set, and the lamp will remember this setting each time it's turned on.

CCT FUNCTION

While the table lamp is on, tap the touch sensor to cycle through three color temperature options (3000K, 4000K, 6000K).

SWITCHING OFF

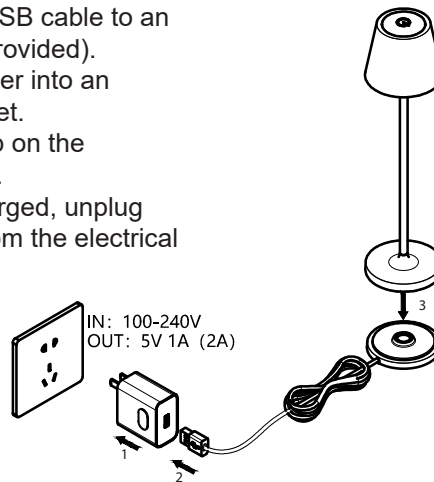

Once colour temperatures have been cycled tap the touch sensor once more to turn off the table lamp

Fully charge the battery before first use.

To charge the lamp, follow these steps:

1. Connect the USB cable to an adapter (not provided).
2. Plug the adapter into an electrical socket.
3. Place the lamp on the charging base.
4. Once fully charged, unplug the adapter from the electrical socket.

INDICATOR LEDS

RED LED

The red LED indicates that charging is in progress.

GREEN LED

The green LED indicates that the battery is fully charged.
