

# IMPAHC | Day 2 | Tues 26 August 2025

Session and theme	Time	Description	Name	Title/topic
<b>Session 5</b> Defining cancer risks for children, adolescents, and their families	9.00-9.40	Keynote speaker	Katianne Sharpe	Paediatric oncology
	9.40-10.00	Oral presentation	Jacqueline Hunter	Parents' and patients' experiences of trio germline whole genome sequencing for newly diagnosed childhood cancer.
	10.00-10.20	Oral presentation	Meera Warby	Family based whole genome sequencing in an unselected cohort of children and adolescents with cancer: the PREDICT study
	10.20-10.40	Oral presentation	Allison Werner-Lin	Young adult cancer survivors' disclosure of genetic risk information to inform cascade testing in families: A qualitative study from the United States Cancer Moonshot Initiative
Break	10.40-11.10	Morning tea		
<b>Session 6</b> Cancer risk management	11.10-11.30	FAC invited crossover	Matthew Yugensen	Pancreatic surveillance
	11.30-11.50	Oral presentation	Hamizah Sa'at	Hereditary Cancer Risk and Cultural Identity: A Multi-Ethnic Exploration of Risk Management Decision-Making in Malaysian BRCA Mutation Carriers
	11.50-12.10	Oral presentation	Tanya Dwarto	Five-year psychological impacts of pancreatic ductal adenocarcinoma surveillance in high-risk individuals
	12.10-12.25	Oral presentation	Kelly Kohut	Lynch Choices: Development and implementation of a codesigned decision support intervention for inherited cancer risk management
Break	12.25-1.30	Lunch		
<b>Session 7</b> Genetic counselling process and outcomes	1.30-1.50	Oral presentation	Tatiane Yanes	Co-designing online education for polygenic risk scores in cancer healthcare
	1.50-2.10	Oral presentation	Laura Forrest	A hybrid effectiveness and implementation trial of the use of a patient screening tool in clinical cancer genetic counselling practice
	2.10-2.30	Oral presentation	Eveline Bleiker	Identification of psychosocial problems during genetic counselling: Evaluation of the Psychosocial Aspects of Hereditary Cancer (PAHC) Questionnaire as part of standard care
	2.30-2.45	Oral presentation	Georgina Schlub	Vicarious trauma in cancer genetics health care professionals: a cancer worry study.
	2.45-3.00	Oral presentation	Badi Quinteros Espinoza	Intersectionality of race and socioeconomic status in genetic counselling: A focus on patient perspectives
Break	3.00-3.50	Afternoon tea and IMPAHC poster presentations		
<b>Session 8</b> Mainstreaming genetic testing	3.50-4.10	Oral presentation	Kathryn Reyes	Exploration of Patient Experiences Through A New Model of Genomics Care Delivery
	4.10-4.30	Oral presentation	Jennifer Berkman	Evaluating Australia's First Familial Melanoma Clinic
	4.30-4.45	Oral presentation	Aideen McNerny-Leo	Mainstreaming melanoma genetic testing: comparable participant outcomes between dermatologists and genetic counsellors
	4.45-5.00	Oral presentation	Katrina Monohan	Updated outcomes from the Parkville Familial Cancer Centre breast cancer mainstream genetic testing program
	5.00-5.15	Day 2 close	LOC	IMPAHC 2027 announcement, awards*, close
<b>IMPAHC close</b>				
	6.00-7.30	FAC posters	FAC delegates	FAC posters with wine and cheese
