

Timber Frame Workshop at the Timber Framing Learning Center of Western North Carolina

July 21-26, 2025

Intro: Nothing says 'come on fall!' like a burn barrel full of pine off cuts and shavings! Hours of the class will be 8-5 each day, with 30 minutes to enjoy home cooked lunches, courtesy of my wife Becky! Click [here](#) for course curriculum.

Instructors: Dan Flinn of Hendersonville, NC. If we receive 6 or more registrations, There will be another instructor to maintain below 1:5 student/instructor ratio.

Location: 1132 Old Fort Rd, Fairview, NC 28730. A small town in western NC, conveniently located near Asheville and Black Mountain, NC

Skills to be taught: Using square rule layout, we will teach plan reading, cutting the basic mortise and tenon joint, brace pockets, and fit-up and raising principles. You will have the opportunity to cut every joint in the frame. There is a sawmill onsite, so we can chat about milling. There will be a discussion on tool sharpening, as well. Dan just completed a Lumber Grading course, so there will be info on that topic, as well! Don't have all the tools? No worries, we have tools to lend!

Lodging: There are several options for Lodging. I can accommodate (1) 30 amp hook up with water, no sewer. The parking lot is gravel, but there is space to tent camp or park a van, etc. There is a clean shower in the shop available for use. On-site camping is free! Check out Airbnb for local deals! Also, there are many hotels in Asheville and Black Mountain.

Cost: 6-day Timber frame class: \$1,300, but register with paid deposit by May 21, 2025 and save \$100! Also, 'bring a friend' and save \$50 on the second registration! We welcome 'non-participating' partners for \$100 to cover the cost of lunch.

The Project: This workshop project will be a 16'x20' cabin with a porch from southern yellow pine. Do you have a small project in mind? Reach out and let us build it during a workshop!

Class size: There is space for 12 students in this workshop.

Contact info: If you have questions about logistics, lodging, food, etc. Feel free to email, text, or call Dan Flinn at quarryviewwoodworks@gmail.com or 828-243-4320.

Click 'Register' below to register for this workshop!
