

Criminal Background Check Services

Our screening services

Our screening services search thousands of location sources containing millions of records, helping to uncover more records than solely using a candidate's address history. The service is continually evolving, refreshing sources and adding new sources to create a more complete candidate profile and power a more robust criminal search.

County Criminal Search

Our agents gather information directly from the courts by leveraging a variety of search court search methodologies as well as our long-standing relationships with a vast network of court researchers.

State Criminal Searches

Our comprehensive statewide searches look for felony and misdemeanor convictions, where available, on state repositories. Our criminal background check services conduct searches in compliance with federal, state, and local regulations.

Federal Criminal Searches

Federal crimes, which can be very serious, don't appear in state courts. Our teams search federal districts to retrieve records from federal courts to discover crimes in violation of federal law or that cross state lines.

Sex Offender Registry Search

Our screening system screens your applicant to discover if they have been convicted of sexually related offenses.

County, State, and Federal Civil Searches

Civil searches report claims brought by or against your candidates in state court or federal court, depending upon the nature of the claim.

International Criminal Records Search

Our agents search for criminal activity across the world. Our international searches mean you can feel protected regardless of where your applicants have lived and worked.
