

Power BI Training

Understand business intelligence key concepts, data analysis & data visualization.

Power BI Training

Learn how to **Aggregate, Analyze, Visualize and Share Data** the fastest and most efficient way.

Power BI Desktop | Power BI Service | Power BI Mobile Apps

A two-day hands-on training that offers comprehensive coverage of the Microsoft Power BI features with challenging practical exercises.

Features

Acquire knowledge and identify ways on how to aggregate, analyze, visualize and interact with your most critical business data using **Microsoft Power BI**: a self-service business intelligence platform.

Duration and Format

Two days of interactive training that covers the Microsoft Power BI features in a comprehensive way provided with exercises.

Course participants will apply the acquired skills and tools in their actual organizational project environment.

Course Benefits

- ✓ Gain insights and understand the key concepts in business intelligence, data analysis and data visualization.
- ✓ Learn how to import, shape, transform and automatically create dashboards from data and services.
- ✓ In-depth guidance for enriching data with business calculations and natural language queries as well as consuming dashboards in mobile apps.
- ✓ Learn how to leverage your Excel reports within Power BI and exploring live connections to data through connecting directly to SQL Azure, HD Spark and SQL Server Analysis Services.
- ✓ Gain skills in Power BI Development API and leveraging custom visuals in Power BI.
