

Election and Polls

24 June 2022

In case you feel like taking a walk down memory lane...

This first article is from Nov 8, 2016 (Election Day) a few hours before the polls closed.

Here is one summarizing the election results.

https://en.m.wikipedia.org/wiki/2016_United_States_presidential_election

Regardless of how you might “feel” today...Never forget...Your vote counts!

There are at least two, VERY different visions for the near and long-term future of this nation. These visions are NOT confined to one person, but rather they are infused into the fabric of all three branches of government over time. The Constitution was painstakingly written and amended to keep checks and balances on all 3 branches.

YOUR vision and YOUR desire for the future of America, to include every single way in which the government is a part of your life, is at tremendous stake this election.

Please, do deeper research than just the mainstream media and social media to determine what those two distinct visions are and vote accordingly.

Read some history books from multiple angles. See what has and hasn't worked on multiple continents and multitudes of nations. America is unique, but we are not immune to other failures in history. Read, educate yourself, think.

Only 110 days to go!
