# About Our Company

We believe that better is not just a word but an action for a better service and world. Although incorporated in 2011 to meet the demand for better and quality products and services, 2022 represents a new beginning and a renewed ambition for Julimer (Maritime and Insurance Agency) to be here for better. Julimer is currently focused on providing improved and better services in the maritime and insurance surveying industry. Our ultimate aim is to protect the interests, meet and exceed the requirements of our clients through professionalism, innovation and technology while making the world around us much better.

We are building a balanced group of professionals with different backgrounds, experience and attributes, in house and through our partners and networks to deliver our services timely and efficiently, responding as a team rather than an individual to serve you better.

# Our Values

We are driven by a core and shared belief that the world can only be as better as we make it to be. Our values ensure that our people and clients are at the centre of what we do; building trust for timeless and rewarding relationships.

## Integrity

Upholding trust and delivering on our promise is our most important responsibility in our interactions and reporting. Giving you the insights you need for better decision making.

## Reliability

Timely response and consistent delivery of our services with utmost professionalism guide our work. Ensuring you are able to get the insights you need when you need it.

## Collaboration

Team approach to our services for well rounded survey and risk management solutions to our clients. We are at our best when we work together for better.

## Innovation

Commitment to reinventing the wheel and development of people, ideas and technology for better client protection and outcomes, and leadership in the industry.

# Our Memberships

We believe in collaboration to improve our technical expertise, growth and to build better knowledge and capacity to deliver on our promise. We are investing and engaging in local and international memberships both at the personal and corporate level.

## GUILD OF MARINE SURVEYORS

- Membership Reg. NO.: GMS/PIN/LAC/057

## INTERNATIONAL ASSOCIATION OF MARINE CONSULTANTS AND SURVEYORS

- Membership registration in progress

## INTERNATIONAL INSTITUTE OF MARINE SURVEYING

- Working on membership for the 2nd quarter of 2023
- 

WE ARE COMMITTED TO AND ACTIVELY SEEK MEMBERSHIPS THAT CONTRIBUTE TO OUR PERSONAL AND CORPORATE DEVELOPMENT FOR DELIVERY OF BETTER SERVICES.

# Our Advantage

## Professional

We believe in competence, growth reliability and trust. Our services are entrenched in providing value that meet your unique needs. We are developing partnerships and joining memberships that helps us better protect your business interests.

## Technology

From simple technologies to machine learning and artificial intelligence. Technology is the future. We are focusing on leading the way in using advanced inspection technologies for predictive and less intrusive surveys.

## Agile

We move quickly and adapt to your changing needs in an ever expanding and complex maritime and insurance industry. We help you stay in control of the risks you cover, reducing claims and increasing your profitability.

## ESG

There is increasing attention to climate change in the maritime and insurance industry, and globally. We are paying attention to the environmental, sustainability and governance in our services to you.

## Function

We are here for relationships that make better. Whether it is improving your knowledge of the industry and our increasing role in it or how we can better serve you. We stay in the picture, protecting your interests for better.

## Responsive

Faster turn around times on the services we offer means faster and better decision making, saving costs and increasing profitability. From receiving your instructions to reporting, we are leveraging tools for faster and better service.

# Our Team

...and the amazing team of innovative and technical professionals we are building.

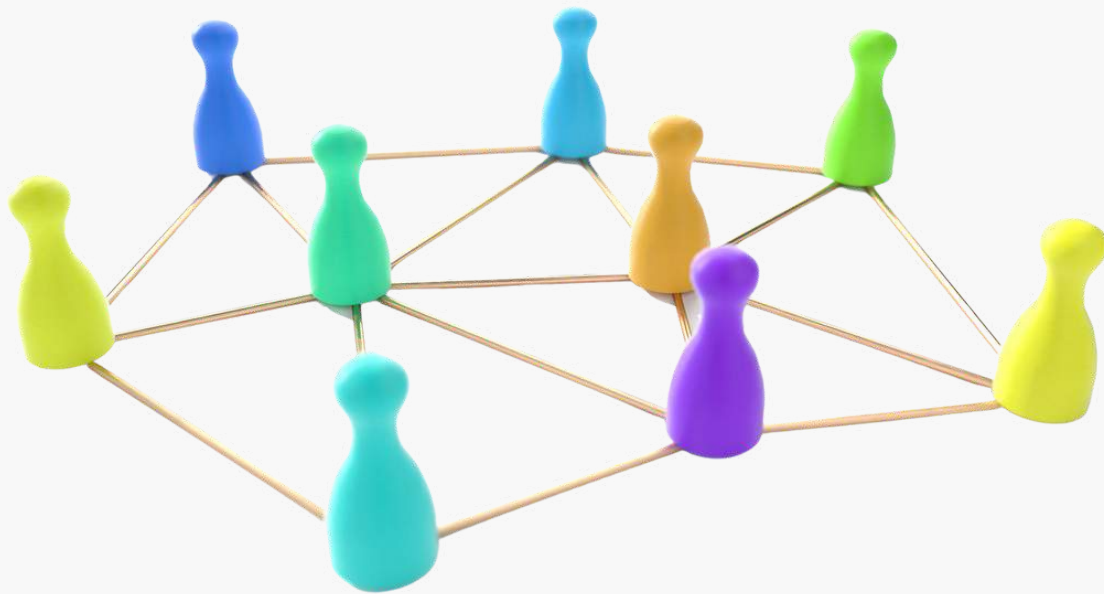

# Our Digital Transformation process

As people, businesses and the world demand faster, cost effective and better services and solutions, more so in the growing, evolving and continually complex world of maritime, insurance & surveying industry. We believe that a shift to digitalisation in our business processes can drive better engagement, faster and efficient service to our clients and stakeholders.

At Julimer, we are committed to the digitalisation of our business processes and services. However, we understand that our digital transformation process cannot be successful without your support. Starting with our reporting methods, we are employing digitally signed reports rather than paper to speed our services to you, for better storage and transmission to team members, protect our environment and reduce our carbon footprint in a world of climate change.

We will continue to dialogue on the best ways to serve you as we deep-dive into other technologies that may be beneficial to our relationship for better. We also understand the need for data protection and management, and we adhere to all existing local and international laws such as the NDPR and GDPR. Support us on our journey and let's work together for better.

JULIMER is committed to the provision of Risk Surveys/ Marine Surveys/Cargo Inspections and Superintendence services including professional services through consultancy to international standards and which in every way meet the customers' exact requirements, needs and expectations. We are also committed to fulfilling our obligations in regard to safety, environmental and all other relevant statutory or contractual requirements.

# Our QUALITY POLICY

# Thank You

Because, we're here for better.

We are excited about the present and future of Julimer and the role it would play through innovation and technology in advancing the maritime, survey and insurance industry. Support us on our journey for better. We are ready for business, talk to us!
