Designer's metallic surfaces®
Iron, iron rust, stainless steel, copper, zinc, chrome, nickel, silver

WITH OUR NOVEL TECHNOLOGY, PRODUCTS AND PROCESS VARIOUS REAL METALLIC SURFACES ARE MADE ON DIFFERENT SURFACES SUCH AS CONCRETE, GRC, WOOD...

COMPLEX SHAPES, PATTERNS SURFACES ARE CHANGED TO REAL AUTHENTIC METALS.

THE TECHNOLOGY ELIMINATES THE DIFFICULT TASK OF MAKING UNITS FROM CUMBERSOME METAL SHEETS, OR CASTING AND LATER OXIDIZING.

WITH THE TECHNOLOGY ELIMINATES SHAPING, ANCHORING, WEIGHT AND OTHER TYPICAL DIFFICULTIES ENCOUNTERED WITH TRADITIONAL METHODS.

DESIGNER'S METALLIC SURFACES ARE NOT PAINTS.

DESIGNER'S METALLIC SURFACES ARE VERY MUCH 'IN' STYLE SPECIALLY WHEN USED IN COMBINATION WITH GREY PLAIN CONCRETE.
