

A large, stylized white sun graphic is positioned on the left side of the image. It consists of a thick white circular outline and several white, elongated, teardrop-shaped rays radiating from it.

GUIDE TO A SAFE SUMMER 2021

SOURCE: CDC.GOV

When can I get the vaccine?

- I am under 16 years old.

Because COVID-19 tended to affect adults (especially older adults) more severely than children, kids were not included in the original vaccine clinical trials. This does not mean that kids cannot get COVID-19 and spread it to others, so it is imperative that they still follow COVID safety protocols. Be safe and patient! Pediatric vaccine trials are underway!

- I am 16 or 17 years old.

Congratulations! You are eligible to receive the Pfizer-BioNTech vaccine! Check your location's vaccine eligibility to see when you can schedule your vaccine appointment.

- I am under 18 years old or older.

Congratulations! You are eligible to receive the Pfizer-BioNTech, Moderna, and Janssen vaccine!

I'm fully vaccinated! Now what?

The CDC permits fully vaccinated individuals to...

- Have indoor gatherings with other fully vaccinated people without wearing a mask or staying 6 feet apart
- Visit ONE household of unvaccinated unvaccinated people (who are not considered at risk) without wearing a mask or staying 6 feet apart
- Travel domestically without taking a covid test before and after their trip and quarantining after their trip
- Travel internationally without quarantining after their trip
- Depending on the destination, travel internationally without taking a covid test before their trip

I'm fully vaccinated! Now what?

Fully vaccinated individuals STILL need to...

- Avoid medium or large gatherings
- Wear masks when in public spaces, visiting high-risk individuals, and meeting with unvaccinated people from more than one household
- Check for COVID symptoms

Fun and safe summer activities

- **VISIT A MUSEUM**

Many museums have opened back up and have formulated a way for you to enjoy breathtaking art while following CDC guidelines!

- **TAKE A HIKE**

Put on your hiking shoes and spend some quality time outdoors! Be sure to wear your mask and social distance while you are taking in the beautiful views!

- **VISIT A DRIVE IN THEATRE**

Grab some popcorn and drive to a local drive-in theatre!

- **PICNICS**

Bring some snacks, a blanket, a good book, and head to the park! Make sure to follow social distancing guidelines to enjoy your picnic day safely!

- **OUTDOOR DINING**

The weather is getting warmer! Enjoy the warmth while safely eating delicious food from your favorite restaurants!
