RE: Hilda Kennedy

Dear Mr. Lafferty:

You have asked that I provide an opinion regarding this matter. By way of background, I have had employment related experience in the field of medical billing/collections since approximately 1979. (See my attached Curriculum Vitae). In those capacities, I have become familiar with, and knowledgeable regarding, the usual, customary, fair and reasonable charges for doctor's services, hospital services, medicines, medical supplies, medical tests and other charges for health care related services. I acquired this knowledge not only by directly being employed by medical providers but also otherwise comparing charges as between various medical providers in the course of my employment.

I have specifically reviewed each and every bill on the attached "Exhibit A" entitled "Hilda Kennedy." In reviewing these bills, I reviewed the entry for each service in order to determine the specific service that was rendered. I then reviewed the charges assessed for each such service and compared that charge to my knowledge, experience and understanding of identical or similar charges by other providers for the same or similar service.

Based upon my knowledge, training and experience as well as the review that I conducted as outlined above, it is my opinion that the medical expenses on the attached "Exhibit A" regarding Hilda Kennedy for the described health care services are consistent with the usual, customary, fair and reasonable charges for the medical service provided.

I remain available to supplement this report as needed.

Very truly yours,

Michael C. Burger, Sr.

RE: Hilda Kennedy

DOB: 03/31/32

DOI: 11/17/14

INTRODUCTION:

Hilda Kennedy is an 84-year-old female who was hit as a pedestrian by a Jitney on the date of injury resulting in multiple injuries including right shoulder dislocation, right displaced proximal humerus fracture requiring open reduction and internal fixation, large rotator cuff tear, scapular fracture, left clavicular fracture, rib fractures, pneumothorax, and axillary nerve injury with atrophy and weakness of the deltoid muscle as well as post-concussion syndrome. She subsequently developed hematoma of the right arm and infection requiring irrigation and debridement. She required prolonged hospital course, inpatient acute and subacute rehabilitation, and ongoing outpatient management including referral for pain management.

The following is a bill review to determine if the charges contained in the billing statements are related to the motor vehicle accident and sequelae of these injuries as well as whether the charges are fair and reasonable. The medical bills were reviewed and compared to the medical records. Charges were compared to the Medical Fees in the United States 2016 database for the Atlantic City area as well as the American Hospital Directory for hospital database charges. This review is based on my knowledge and experience as a certified rehabilitation nurse with twenty years of experience in medical case management including the auditing and review of medical bills as well as my knowledge and experience as a certified life care planner with sixteen years of experience projecting future medical care cost projections

RECORDS REVIEWED:

1. Records of AtlantiCare Regional Medical Center
2. Records of Bacharach Institute for Rehabilitation
3. Records of Shore Orthopedic University Specialists
4. Records of Atlantic Medical Imaging
5. Records of Shore Medical Center
6. Records of Boardwalk Surgical Associates
7. Records of Mid Atlantic Rehabilitation Associates
8. Records of South Jersey Infectious Diseases

9. Billing Statements

BILL ANALYSIS:

The hospital and provider billing was analyzed to determine reasonableness and necessity of the charges. Enclosed please find a work sheet which details the charges by bill with a determination of the reasonableness and necessity of the charges and if any adjustments should be made. The sources for usual and customary charges included Medical Fees in the United States for South Jersey and American Hospital Directory. The summary below will total the re-priced (for usual and customary) bills by provider.

1. Egg Harbor Care Center- This charge would be reasonable for subacute rehabilitation for a two-and-a-half-week period. The average daily charge was \$620.00/day. Total reasonable charges- \$46,552.00
2. Shore Memorial- This charge would be reasonable for a one day admission for irrigation and debridement procedure. Total reasonable charges- \$15,191.00
3. The Plastic Surgery Center- The charge for an initial visit was higher than anticipated for the CPT code used. The total adjusted and reasonable charge- \$212.25
4. Mid Atlantic Rehabilitation- Charges related to office visits and EMG/NCS studies were reasonable. Total reasonable charges- \$1025.00
5. Advanced Anesthesia Associates- Charges related to anesthesia for irrigation and debridement procedure are reasonable. Total reasonable charges- \$2268.00
6. South Jersey Infectious Diseases- Charges for office visits are reasonable. Total reasonable charges- \$690.00
7. Dr. Previti- Charges for office visit and vascular studies are reasonable. Total reasonable charges- \$1430.00
8. Salartash Surgical Associates- Charge reasonable for office visit. Total reasonable charge- \$259.00
9. Quality Medical Billing- Charges for nursing home medical care and outpatient medical care are reasonable. Total reasonable charges- \$1400.00
10. Dr. Daneshvar- Charges related to hospital care are reasonable. Total reasonable charges- \$750.00
11. Dr. Sturr- Charges related to initial rehabilitation hospital evaluation are reasonable. Total reasonable charge- \$298.00
12. Bacharach Rehabilitation Physical Therapy- evaluation charges were higher than anticipated and were adjusted to usual and customary. Therapy charges were reasonable. Total reasonable charge- \$3950.00
13. Bacharach Rehabilitation Acute Rehabilitation- charges for acute inpatient rehabilitation were reasonable. Total reasonable charges- \$45,176.05
14. Bacharach Rehabilitation Physician Care- charges for physician hospital care were reasonable. Total reasonable charges- \$2958.00
15. AtlantiCare Regional Medical Center Medical Transport- charges for transportation were reasonable. Total reasonable charge- \$75.00

16. Shore Orthopedics- Charges for open reduction of the shoulder and rotator cuff repair were higher than anticipated based on the CPT codes used. Other surgical, office visit, and x-ray charges were reasonable. Total reasonable charges-\$19,570.88
17. Atlantic Cardiology- Charges for cardiac evaluation and echocardiogram were reasonable. Total reasonable charges-\$1266.00
18. ARMC Anesthesiologists- Charges for anesthesia for orthopedic procedures were reasonable. Total reasonable charges- \$8600.70
19. ARMC Trauma- Charges for critical care and hospital care were reasonable. Total reasonable charges- \$1987.00
20. Atlantic Medical Imaging- Charges for professional fees for x-rays, CT scans, MRI, ultrasound, and arterial studies were reasonable. Total reasonable charges- \$6,482.00
21. AtlantiCare Regional Medical Center- Charges for hospital admission which included three days in the ICU were reasonable and related to the motor vehicle accident. Total reasonable charges- \$267,116.42
22. AtlantiCare Regional Medical Center Mobile ICU- charges for mobile EMS for a critically injured patient were reasonable. Total reasonable charges- \$3254.00
23. Exceptional Medical Transport- charged for transportation were reasonable. Total reasonable charge-\$390.46

Total Charges Related to November 17, 2014 Motor Vehicle Accident- \$430,901.76

All opinions have been stated with a reasonable degree of professional certainty. Should additional information become available I request the opportunity to supplement this report as necessary.

Sincerely,

Valerie V. Parisi RN CRRN CLCP
Certified Life Care Planner
