GUIDELINES | VERSION 2021
BRAND VISION | COMPANY PROFILE

Construction Management

Coordinating

Between the different specialty trade contractors to ensure smooth flow of projects and optimum utilization of resources.

Monitoring

Projects by submitting periodical progress reports showing the timeline of projects (performance in both time & cost dimensions). The main objective of such reports is to highlight issues adversely impacting the projects' performance.

Controlling

Projects by applying necessary corrective actions to mitigate the negative impact of the reported issues on projects' completion.
