

Integral treatment system

Do not rule out any treatment options

Advantages of using two techniques simultaneously

- I Electro-stimulation is a very pleasant sensation
- I Shorter application times
- I Increased electrical conductivity from sweating
- I Benefits of both static and dynamic heat

Benefits derived from TEI System

- I Lipolytic effect from penetration of infrared heat from 1 cm to 3.5 cm
- I Stimulation of blood and lymphatic circulation
- I Increased metabolic activity
- I Improved vascular system and venous return
- I Increased cell tropism, healing capacity and connective tissue elasticity
- I Analgesia and muscle relaxation
- I Muscle firming with all treatments

TEI SYSTEM . REF. 0080000	
DIMENSIONS	Width 490 mm
	Height 1.000 mm
	Depth 490 mm
WEIGHT	34 kg
POWER CONSUMPTION	290 W

ACCESSORIES

- 2 580 × 190 mm 35 W thermal bands COD. 24TE235
- 4 240 × 260 mm 25 W thermal bands COD. 24TE125
- 4 240 × 170 mm 15 W thermal bands COD. 24TE115
- 2 180 × 67 mm 4 W thermal bands COD. 24TE104
- 10 Band cables labelled from A to J. COD. 33TE114
- 4 100 cm elastic bands COD. 0400800
- 6 60 cm elastic bands COD. 0401000
- 6 40 cm elastic bands COD. 0401100
- 1 Band hanger COD. 30T0110
- 1 Firming ElectroGel (1000ml) 6600071
- 1 Draining ElectroGel (1000ml) 6600070

COURTESY KIT

- 1 580 × 190 mm 35 W thermal band COD. 24TE235
- 1 240 × 260 mm 25 W thermal band COD. 24TE125
- 1 240 × 170 mm 15 W thermal band COD. 24TE115
- 1 180 × 67mm 4 W thermal band COD. 24TE104
- 1 Band cable 33TE114

Tei System belongs to SUMMA range of RÖS'S
Profitable treatments for the professional beauticians

Beauty-parlour technology for
integral body treatments

tei System

Latest-generation thermo-stimulation

Firming, general or localised volume reduction, circulatory activation, sculpting and drainage

TEI System Integral thermo-stimulation

Infrared band and variable current equipment for joint heat and muscle stimulation treatment.

RÖS'S pioneered the development of thermo-stimulation and its team of engineers, in collaboration with beauty professionals, has designed the most sophisticated application bands to provide customers with the best possible results and maximum safety.

INTEGRAL TREATMENT FOR THE ABDOMEN, THIGHS, CALF MUSCLES AND FEET

OVERALL ACTION FOR A WELL-BALANCED PROFESSIONAL RESULT

The pleasure of technology Reduction of volume in just four sessions

How does TEI System work?

Two basic professional beauty-treatment agents, HEAT and STIMULATION, are the key factors in **TEI System**. Thanks to deep infrared heat, the **adipose cells** in fat tissue are heated, aiding their liquefaction by electric current. The controlled emission of heat combined with different types of electric current guarantee the results.

The benefits of thermo-stimulation have been medically proven by Dr Juan Ramón Zaragoza.

All-round TEI treatments. Your appointments diary is full!

18 electro-currants
combined in
21 body programmes

Integral treatments

Latest-generation strips

The easily applied thermo-stimulation strips are the key to **TEI treatment**. Flexible, adaptable, tough and safe, their laminar circuit provides completely uniform infrared emission, while their flexible cover adapts to the body to ensure full contact.

Supplied with 12 long-lasting strips which adapt to the body. Rapid application. Easy to clean. Four different sizes. There is also a Courtesy Kit to cope with any incident.
