

ULTRA PLUS AQUA SHINE NEEDLELESS PRESSURE JET

1st Needleless Jet in the Market

An innovative needle-free serum administration device that distributes serum through skin (transdermal)

Ultra Plus Aqua Shine XC3S

What is Needleless Pressure Jet?

This needleless pressure jet device that delivers a tiny hole, high-pressure jet of serum through the skin without the use of a needle

This principle is based on pressure and pressed at high speed create a 'NANO BULLET' through a small orifice in the nozzle to promote wound healing process and precise penetration deep into the skin.

These studies have shown that needle-free serum delivery can be as effective and produce less pain and anxiety than traditional needle injection

Ultra Plus Aqua Shine XC3S
