2 IN 1 HIFU

FACE LIFTING

- ❖ HIFU (High Intensity Focused Ultrasound) directly delivers heat energy to skin and subcutaneous tissue and reaches at SMAS Fascia layer, that can stimulate and renew the skin's collagen and thus consequently improving the texture and reducing sagging of the skin.
- ❖ It literally achieves the results of a facelift or a body lifts without any invasive surgery or injections, moreover, an added bonus of this procedure is that there is no downtime.

2 IN 1 LIPOHIFU

BODY SLIMMING 瘦身

- ❖ LIPOHIFU system uses high-intensity focused ultrasound deliver uniform energy at precise depth (13mm) to destroy targeted subcutaneous fat non-invasively, causing a rapid local temperature rise, destroying targeted adipose tissue just beneath the skin in the abdomen and flanks
- ❖ Predictable results after a single one-hour treatment.
- ❖ It can penetrate the skin layers and reach the targeted fat tissue without harming skin or surrounding tissues.
