

ALONE IN THE SILENCE (narcotically induced writings)

Alone in the silence
Spare here the dark
Half life a face
Hollow life apart

Body's searing pain
Drugs to USE at hand
Narcotic use failing
Going there again

No matter use feeling
Using use failing
Addicts arm dying
Heads heart screaming

Searing pains pointless
May as well be dying
No saving either way
Use extra or nothing

Doubling down
Go big
Go home
Now or nevering

One good
Two better
Threes not enough
And fours using again

Your legit pain don't care
Rages and sears
Sears your body
Rages your brain

Eight days pass
My broken body
My broken mind
My aching wavy

My eight day addict
Fighting that addict
Searing painful addict
Loathing painful addict

My addict screams
Pain screams at me
Brusing screams at me
Heel screams at me

Pain pill aren't working
Pain I can't trust
Pain won't work
Pain I can't just

Pain won't go
Pain can't show
Pain too low
Pain please go
