

## NARCISSIST JOY

This is me  
I guess you won  
Tipping my hats  
One by one

Victories you have  
Narcissistic joy  
Are you dancing?  
And jumping for joy?

They drank your Kool-Aid  
Every drop  
By the gallon  
Just by the drop

All my kin  
Now your Redcoats  
I'm the Yank  
While you gloat

These people I loved  
Away you've swept  
Tidal waves crash  
Alone I've wept

Narcissist, narcissist  
Master manipulator  
You were the best  
Almost a dictator

All of your guile  
Inward self hate  
Eating your money  
A lusty rage

I do not blame  
Those I've lost  
Brain washed cousins  
Their minds tossed

My heart breaks  
I mourn heavily loss  
It will take time  
Dealing your cost

Really deep down  
Eye on this coming  
Knew what you'd take  
Bones felt the warning

Narcissist battle  
We've engaged in  
Akin to holding grenade  
And pulling the pin

This grenade blew  
And tore me apart  
My body and soul  
My broken heart

Yep, you done, done it  
Yep, you surely did  
So, tell me, narcissist  
What's your next gig?
