

Private Lessons and Semi-Private Lessons

Learn firearms safety, fundamentals of target shooting, and defensive shooting in a 1 on 1 setting or your small group. This lesson is tailored to your current skill set and what your goals are in advancing your firearms knowledge and skill. This is the fastest and most convenient way to gain and master a skill because you are placed with an instructor whose attention and focus is on you or a small group students. If you have attended a group lesson in the past this is a great way to brush up and fine tune what you learned. Our Instructors are very good with children and we are only limited based on the range we are training at with you (Most ranges have a 12-year age minimum).

The Progressive Defense Group Instructor Cadre' are certified firearms instructors through either the NRA, USCCA, and/or The State of Georgia. Our instructors come from multiple backgrounds ranging from Military, Law Enforcement, Private Security, and Competition Shooting. You will be learning from professionals in the firearms industry, many whom have real world experience with firearms in their daily lives.

Training can range from beginner up through advanced shooters wanting to get further training in additional areas. We have worked with Police Officers, Military personnel, Armed Security Guards, and private security groups to advance their skill set and even get them back on track to pass their annual qualification.

Private Lesson Costs:
