We Believe in Quality and Commitment.

BED LINEN

Mattress Protector

- A 100% COTTON from T-145 to 200 Count Machine Quilted to Durable Woven 100% Polyester Filling.
- Single Diamond Quilting Pattern for Added Loft.
- Available with Corner Anchor Bands or with a 25 – 30 CMS deep fitted skirt.
- Any size can be made

Flat Sheet

Finesse hotel collection is made of 100% Egyptian cotton, pima & Giza cotton, woven, cut and sewn entirely in India. Finesse Bedsheets ranges from 180 TC to 1000 TC in percale, sateen, dobby & Jacquard Weave. Designed for durability and easy care, this 200 per scale 100% cotton rich blend comes in extra-long lengths and with extra deep pockets.

Percale Weave:

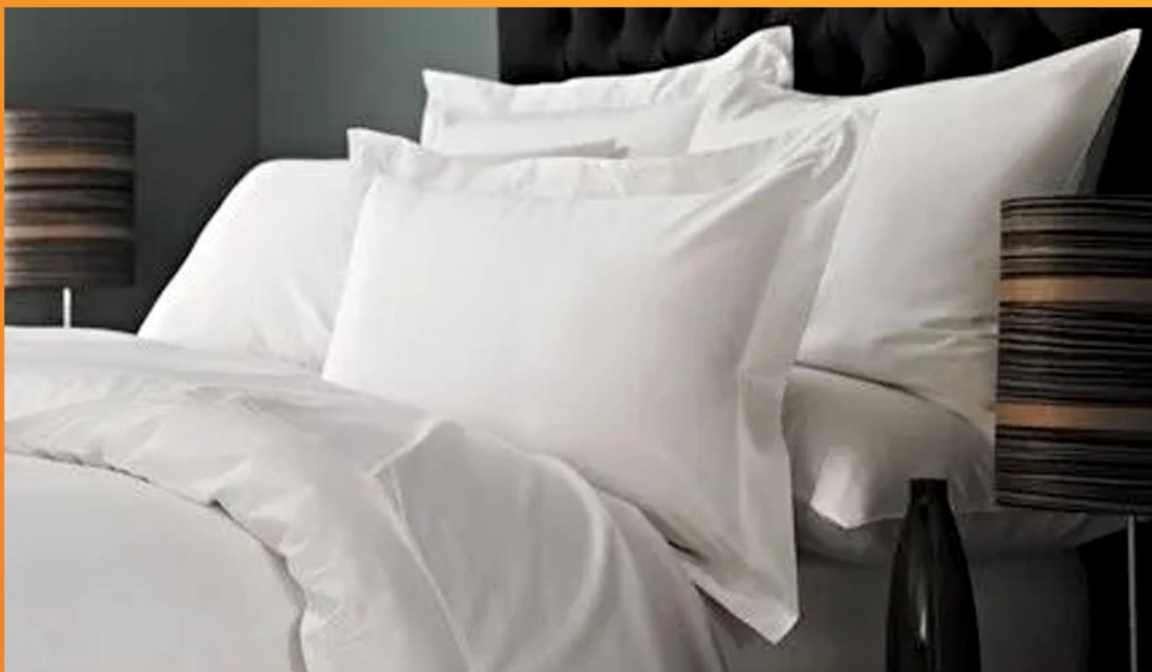

In a Percale weave the Weft Thread goes over one and under one warp thread. The result is a fine, even texture, and a crisp sensation. Finesse percale weave, bedsheets, are, manufactured with a 2-inch hem and piping at one end, and the traditional 2-inch hem and piping at other.

Sateen Weave:

A type of weave whereby the weft thread goes over more than one warp thread. The result is sheen or luster on the front side of the fabric, a silky feel, and a graceful drape.

Dobby Weave:

Finesse doobby weave consists of 1 cm, 2 cm, 3 cm stripes, bands and checks. Our satin stripe sheet, has the plain 2-inch top hem.

Thread Count

Thread count is simply the number of warp and weft thread in a 1 inch of fabric. It is not necessarily an indicator of quality. Quality of fabrics is determined by the quality of the raw material (the staple length, strength and luster of the fiber), the weaving and finishing process.

WHY BAMBOO?

- ✓ We're changing the beginning by cutting down less trees and replacing woodpulp and plastic products with bamboo products.
- ✓ Be green with no compromise on cost or quality.
- ✓ Our bamboo products are recyclable, biodegradable.
- ✓ It is the single fastest growing plant on the planet (3-5 years).
- ✓ It thrives in depleted soil and retains soil moisture to encourage regrowth.
- ✓ It generates 38% more oxygen and removes more carbon dioxide from the air than trees.
- ✓ It creates jobs and boosts economic development.
