

**Kingman Cares**  
Durable Medical Equipment

Kingman Cares accepts donations of durable medical equipment of all kinds. We clean and sterilize them and then get them back out to other who need them. Some times people will need equipment and not have the insurance to cover it and other times the insurance they have does not cover the equipment. We want to make sure you have access to what you need.

Please feel free to contact us if you need any equipment.

At this time we are not providing hospital beds or electric wheelchairs.

If you are donating equipment please feel free to contact me and let if we need to pick up or you can deliver.

Due to the need to clean, sterilize and repair equipment, we ask for cash donations as well.

Thank you for your support!
