

To whom it may concern,

It's my pleasure to put in a recommendation for Karlene Minea. I've worked with her for several years as her co-worker and during my time with her I was always struck by her outgoing personality, her focus, and her dedication to her work.

Her ability to adapt and learn new challenges has given her a wealth of experiences for her to draw on and will be a huge asset to any team.

With her help - we were able to achieve amazing results within our department and she was instrumental in paving a way forward with improvements. Being a strong player she requires little supervision and can carry out complex, creative tasks with efficiency. Our only drawback at the time was not being able to challenge her enough.

I highly recommend Karlene and I have no doubt that she will be able to go above and beyond her role. Feel free to contact me if you have any questions regarding her past work.

Thanks,

Danny Vong
