YOUTH

WISCONSIN
UNIVERSITY OF WISCONSIN-MADISON

Advisory Board

What's LMFAO?

At the University of Wisconsin-Madison, we conduct research on social media to promote socioemotional wellbeing and amplify positive social media activities among teens.

Who can join?

Our Youth Advisory Board is seeking LGBTQIA2S+ youth in WI who are ages 13-16 years old and interested in health, digital media, and leadership.

Throughout the school year...

- ✓ Attend at least **3 virtual meetings**
- ✓ Engage monthly in our board's **Discord**
- ✓ Earn a **\$125 stipend** for volunteering
- ✓ Gain professional, writing, research, and leadership **skills**
- ✓ Contribute to **cutting-edge research** on digital media

LMFAO Youth Advisory Board (YAB) Description

Our YAB aims to share research ideas, work together, provide feedback on ongoing projects, and interpret study findings. We encourage teens ages 13–17 who live in Wisconsin and are interested in LGBTQIA2S+ health, digital media, and service-leadership to apply.

What's the commitment?

- **Membership:** The term is one year. You are able to re-join the YAB as long as you are still between ages 13–17 years old.
- **Meetings:** We will meet 4 times per school year on Zoom and will set the schedule at the first meeting based on everyone's availability. Each meeting will have a topic related to youth, well-being, social media, and LGBTQIA2S+ health. YAB members commit to attending at least 3 out of 4 meetings.
- **Messages:** Between meetings, you will be asked to engage in the YAB group chat on Discord at least once a month.

What do I gain?

- A \$125 stipend
- At least 10 volunteer hours
- Professional, writing, research, and leadership skills
- Ability to contribute to cutting-edge research on digital media
- A letter of recommendation from an adolescent medicine physician
- Networking opportunities with teens across Wisconsin who are interested in LGBTQIA2S+ health, digital media, and leadership.

What's LMFAO?

We're the Learning More from Adolescents Online Lab! Our research team is studying how teen well-being relates to technology and digital media. Our goal is to help LGBTQIA2S+ youth engage in more positive social media activities and have fewer negative social media experiences. To do research like this, youth need to be at the center! That's why we're starting our very first Youth Advisory Board with teens like you!

What if I have questions?

Once you apply, you can expect us to contact you about the next steps! If you have any questions, feel free to email us at lmfao@pediatrics.wisc.edu or visit our website: www.lmfaoteam.org/.
