

Dear Billings Residents and Amend Park Attendees,

Amend Park has had a successful fall season in spite of the uncertainties and unprecedented circumstances we faced with COVID-19. Thank you to everyone who helped us make the fall season successful and safe for our user groups and youth athletes. We could not have done this without your help and cooperation.

We are now turning our attention to the upcoming 2021 spring and fall seasons. The Amend Park Development Council, a non-profit organization, works hand in hand with the City of Billings to maintain and improve Amend Park. The Amend Park Development Council and the City takes great pride in the keeping the park in the best condition possible for the daily scheduled events as well as recreational use for the citizens of Billings.

As we look forward to the upcoming spring season, we have identified several projects that will not only improve the quality of Amend Park and its facilities, but will allow us to provide a better experience for the visitors of the park. In addition to the funding provided by the city, the Amend Park Development Council must also raise additional funds to complete these projects. We rely on private funding from our community to raise the dollars necessary to fulfill those projects.

We hope as a community member and engaged user of Amend Park you will consider donating to Amend Park through our Council so that we can continue to work towards our goal of improving one of Billings premiere and most visited parks. As a potential supporter of Amend Park Development Council we thank you in advance for your consideration. I would like the opportunity to talk with you about our upcoming projects and the funding needs for Amend Park. Please contact me at (grant.franjevic@amendpark.org) or (406-855-8232) so we can discuss how we can partner for the benefit of this amazing park.
