The BUYER agrees to provide a life-long commitment, suitable environment, prompt medical attention, proper grooming, and responsible care. This includes keeping this puppy/dog parasite free and up to date with vaccinations, exercise, proper nutrition, which consists of a good quality professional feed given at regular intervals, and fresh water at all times.

The SELLER guarantees this puppy to be of sound health and temperament at the time of this sale. This puppy is registered with The Goldendoodle Registry, confirming the pedigree of the sire and dam. Each puppy is examined and receives a health certificate from our veterinarian, including a full body exam (hips, elbows, ears, eyes, mouth, teeth, heart, etc.) The puppies will have also received 3 dewormings, their first set of inoculations, and microchip implantation. The BUYER agrees to take this dog to a licensed veterinarian of their choice within 3 days for a physical examination and schedule appointments for continued vaccinations. Should puppy be determined to be in ill health by the vet at that said time, the cause of which is clearly attributable to the SELLER, the dog may, upon signed written diagnosis from said veterinarian, be returned for refund of the purchase price. BUYER also agrees to take the puppy to the vet at appropriate intervals to keep the puppy/dog healthy and up to date on vaccinations, etc.

SELLER provides a health guarantee until Puppy is 24 months of age against hip dysplasia (moderate, severe) that would require surgical intervention as confirmed by an OFA (Orthopedic Foundation for Animals)

report; AND any life-inhibiting genetic diseases that are tested in the Embark and/or Paw Print panels for the breeds specific for the doodle purchased at the time of breeding. Under these circumstances whereby these genetic diseases may be diagnosed, BUYER MUST contact SELLER within three (3) days of any veterinary diagnosis. BUYER must provide to SELLER veterinarian records including, but not limited to, tests and results while treatment/diagnostics are being done. In the event BUYER fails to notify SELLER of the Puppy's diagnosis or health concerns within three (3) days of diagnosis, or fails to provide documentation as requested by the SELLER, the health guarantee shall be voided. Upon verification of diagnosis by SELLER'S veterinarian and/or a DNA Genetic Lab (Genetics must be tested through Animal Genetics or Paw Print Genetics), and after a determination, made by two independent veterinarians, that the Puppy would be unable to live a quality life as a companion, BUYER may return the Puppy for a full refund of the purchase price (less the non-refundable reservation fee), or may retain the Puppy and half the purchase price will be refunded to the BUYER. No other guarantees are given, written, or expressed.

The SELLER requires waiting until at least 12 months of age for spay/neuter as early spay/neuter has been found to increase the risks of joint disorders, impact urinary health, and increase cancer among other things. Females, in addition to being at least 12 months of age, must have gone through at least one heat cycle. The heat cycle for females releases hormones that are beneficial for bladder maturity as well as joint health and overall development. Early spay/neuter before 12 months of age (both males and females) & prior to females first heat voids Health Guarantee.

DNA testing, where the results are interpreted to mean that a dog might or may at some point develop a certain disease, is not covered under this warranty.

Upon execution of this contract, all veterinary care and its associated costs are the sole and exclusive responsibility of the Buyer. Buyer understands the risks associated with flea and tick medications, vaccinations, and other treatments designed to reduce the chances of contracting disease and parasites. If the buyer chooses to use such products the seller will not be held liable for related and documented side effects of the medications.

Doodles in the Skype puppies are sold on a strict NON-BREEDING contract unless breeding rights are purchased and indicated above in contract. If breeding rights are not purchased (\$350), the buyer will send a copy of the veterinarian record once the spay/neuter is complete. (Not doing so will void this sales contract.) If breeding rights are purchased, breeder does not guarantee the ability, disposition, or outcome of breeding the puppy and will not cover any costs associated with such.

If, for any reason, the Buyer is unable to keep the puppy, the Buyer agrees to contact the Seller first and provide the Seller with the opportunity to assist in rehoming the dog. The Seller will make reasonable efforts to find a suitable home for the dog or assist the Buyer in the rehoming process. However, the Seller is not responsible for any costs associated with the rehoming process, including but not limited to transportation or veterinary fees. The Health Warranty is nontransferable.

Under no circumstances will the amount refunded or reimbursed to Buyer exceed the original purchase price of the puppy minus initial non-refundable reservation fee. This includes Seller reimbursement of veterinarian fees, cash refund, or replacement puppy value.

This shall serve as a contract expressing the BUYERS commitment for purchasing a puppy. The deposit amount will be deducted from the sale price of the puppy and will not be returned to the buyer.

# Puppy Questionnaire- Doodles in the Skye

---

***Please help us get to know you more by sending us brief answers to the following questions:***

1. Who will be primarily responsible for the puppy/dog's care and what are the daily arrangements for meeting the demanding needs and training of the puppy? (example: crate training, pet sitter, etc.)
  
2. Do you have an enclosed yard or plans on doing so for the puppy? How much space is available for daily exercise?
  
3. Are there any children in your home? If so, how old are they? How would they be instructed in the care of the dog?
  
4. Are there any other pets in the home? If so, how do they do with interaction with other animals?
  
5. Anything else you would like to share about your deciding to add a Doodles in the Skye Pup to your family at this time?
