DO NOT SHIP ADVANCE FREIGHT TO Renaissance Schaumburg

Material Handling Information

- There will be a charge for material handling based on CWT (per 100 lbs.) which is applicable if freight is handled by SourceOne Events.
- Each shipment incurs a 200 lb. minimum charge. This applies when SourceOne has labor move freight from Show Site dock to the exhibitor's booth, providing empty stickers, storing empties, returning empties at the close of the show, and loading onto the exhibitor appointed show carrier. (See Material Handling Form for Charges).
- Please be sure to see our Exhibitor Service Center located on the show floor to assist you with your outbound material handling preparation.
- Make sure you identify your company name and booth number when making arrangements with an outside carrier for shipping your exhibit at close of the show.
- Any shipments received outside of the outlined shipping instructions are subject to a 10% increase to the advance material handling rates.

Jurisdiction Information

Should any freight be received by Renaissance Schaumburg, it will be consigned to SourceOne Events, Inc. and subject to the prevailing drayage rate plus any additional handling fees.

- The unloading and delivery of all display related materials from the Show Site receiving area to the exhibitor's booth, and unloading out from the exhibitor's booth to trucks at the receiving area, falls under the jurisdiction of SourceOne Events, Inc. and will be performed exclusively by SourceOne Events, Inc. The only exception to this rule is that exhibitors may "hand carry" items into the exhibit area, provided they do not go through the dock or loading area at the facility. The use of material handling equipment to assist them in either the loading or unloading of their materials is prohibited on the show floor.

We urge you to ship your materials in advance to the designated material handling/drayage warehouse.

Benefits of Shipping to Advance Warehouse

- Storage of your freight for 30 days prior to show.
- Tracking and notification of freight arriving at advance warehouse or missing items prior to show.
- Materials will not be refused due to lack of space for your exhibit prior to show.
- Peace of mind your materials will be in your booth for you to begin set-up at your assigned set-up time.
- Storage of empties during show and returning of empties at the close of show.

Please Note: Overtime/Double Time rates apply for labor and material handling rates before **8AM** and after **4:30PM Monday through Friday, Saturday and Sunday, and Holidays** during either delivery/pickup of freight or during the load-in/load-out of exhibitors freight.

Exhibitor Service Manual (ESM): Review the show's service manual and familiarize yourself with the rules, regulations, labor jurisdiction, and order deadline dates for best planning practices.

No matter the scale of your project, we'll get the job done. We use current printing technology to offer high-quality prints on time. Some of our capabilities include stationary prints, banner stands, fabric back walls, dye-sub fabric prints, custom cutout graphics, and much more!

Please call SourceOne Events to receive a quote on your custom graphic work.

Important Information:

- All graphics need to be submitted 14 business days prior to event to receive discount pricing. If received after the discount deadline date, standard pricing will apply.
- If a customer provided print file is not setup for print and requires a designer to reformat and re-design the graphic, then a designer time surcharge will incur.
- All customers who purchase a graphic will receive a graphic proof sheet to review before the graphic(s) go into print production. Once the graphic is approved, you can no longer send a revised graphic for print.

Customer Guidelines for Submitting Graphic Artwork

Our goal is to provide you with the best quality graphics for your event or exhibit. You can help us in that effort by providing digital art files that adhere to the following guidelines. The purpose is to assist you in the process of creating files that are acceptable for production and most optimum for viewing. If you are sending finished print ready files, please pass this information along to your graphic designers/art department. Please use the acceptable software and file types listed below. By adhering to these guidelines, it will greatly enhance the accuracy and execution of your artwork's production.

Provide the Following When Submitting Artwork

RASTER ART (photos, logos containing any continuous tone images):

- Art Submitted at 1:1 (100%), resolution should be no less than 60dpi (100 dpi preferred)
- Art Submitted at 2:1 (50%), resolution should be no less than 120dpi (200 dpi preferred)
- Art Submitted at 4:1 (25%), resolution should be no less than 240dpi (400 dpi preferred)

VECTOR ART

- Logos should be in vector format and have outlined fonts (if provided as bitmap, please use high-res images)

FONTS & LINKS

- Supply all fonts used in your design (zip Mac fonts). Convert fonts to outlines if unsure how to package them in a zip file
- Supply all links used in your document. Use packaging feature if available. If unsure how to collect links, embed them in the file when saving.

COLOR (when color match is required follow these requirements)

- PMS color matching is required. Please use original Pantone® + Solid Coated® swatches in your artwork. Modifying Pantone® names will result in printing default color (CMYK)
- CMYK artwork will be produced "As Is". Our color output is balanced and vibrant.
- Convert RGB art to CMYK if possible.
- If you are sending Certified Color Proofs (Gracol, Swop, Fogra), please provide ICC profile information used to print your samples.

ARTWORK IN STRUCTURES

- Please note that any panels going in the metal frame will hide 1/4" of your art on the sides and 1/2" top and bottom. If you have a continuous wall where individual panels are divided by metal, use 1.25" spacing in between each panel to account for gaps and the natural flow of the graphics.

- Indicate workers needed for installation and dismantling.
- SourceOne Events assumes no liability for loss, damage or bodily injury arising out of the installation and/or dismantling of Exhibitor's property by SourceOne Events provided required area jurisdiction for labor. Exhibitor assumes the responsibility and any liability arising therefrom, for the work performed by required area jurisdiction for labor under Exhibitor's supervision.

- B. Exhibitor must ensure their contractor provides SourceOne Events, Inc. with a Certificate of Insurance indicating a minimum of coverage, including property damage by **January 5, 2024**.
 1. Commercial General Liability, including contractual liability, with limits of no less than \$1,000,000 each occurrence, \$2,000,000 general aggregate and \$2,000,000 products & completed operations aggregate.
 2. Automobile Liability with a limit of not less than \$1,000,000 combined single limit - each accident. All owned, hired and non-owned boxes marked.
 3. Workers Compensation, as required by law, with Employers Liability Limits of not less than \$1,000,000 each accident, \$1,000,000 disease - each employee and \$1,000,000 disease - policy limit.
 4. Umbrella/Excess Liability with a limit of not less than \$1,000,000 each occurrence/aggregate.
- C. Exhibitor is ultimately responsible for all services in connection with their exhibit, including freight, drayage, rentals, labor, etc.
- D. The EAC must have all business licenses, permits, and Workers' Compensation insurance required by the State and/or City governments and the facility management prior to beginning work. Contractor shall provide evidence of compliance upon request.
- E. The EAC shall share with SourceOne Events, Inc. all reasonable costs incurred as a result of/relating to the EAC's operation, including overtime pay for stewards, restoration of exhibit space to its initial condition, etc.
- F. Smoking/Vaping in any form is prohibited in most facilities. Smoking/Vaping shall only be allowed in designated areas.
- G. If the EAC fails to provide the documentation required, the exhibitor will be required to use SourceOne Events, Inc. for such services at the prevailing rates set forth in the Exhibitor Services Manual.
- H. EAC agrees that they must ascertain and comply with all rules and regulations of the venue, Show Management, and/or the Official Service Provider in order to create a safe work environment. A failure to do so can result in a delay or termination of your right to continue work if the condition cannot be corrected.
- I. EAC agrees to indemnify, defend, and hold the Show Management, the Facility, and SourceOne Events, Inc. harmless from and against any and all claims, lawsuits, demands, liability, costs, and expenses, including reasonable attorney's fees and court costs, arising out of EAC's operations, including supervision of SourceOne provided labor. EAC also agrees to reimburse SourceOne for all attorney's fees and costs incurred in connection with any and all claims, lawsuits and counterclaims that should arise out of EAC's failure to adhere to the terms of this agreement.

- M. Be aware of vehicle traffic inside and outside of the facility. All attendees should be aware of their surroundings and all individuals are solely responsible for their own safety in parking lots, driveways, access roads and non-exhibit hall areas.

- Q. EAC agrees SourceOne Events, Inc. is not responsible for any items stored in empty containers. Do not store empty cartons inside of empty crates. Cartons are returned from storage before crates so exhibitors may begin packing their product.
- R. Label empty cartons and crates for storage as soon as they are ready. Holding back on "empties" only adds congestion to the aisles.
- S. EAC/exhibitor may not move freight from one booth to another booth, or to meeting rooms. SourceOne Events, Inc. must provide labor if this is requested.
- T. The exhibitor or its EAC should order services required from SourceOne Events, Inc. and the Exhibit Hall in advance. Ordering labor or services on-site (which contractors may not be prepared to provide immediately) may delay the set-up of your booth or force your set-up into overtime.
- U. EAC/exhibitor agrees to keep "No Freight Aisles" clear at all times. If SourceOne Events, Inc. is required to rearrange any material situated in a clearly identified "No Freight Aisle", the exhibitor or the EAC, depending upon the billing arrangements with SourceOne Events, Inc. will be charged a one hour minimum for forklift rental and labor.
- V. EAC/exhibitor agrees that all outbound freight bills should be turned into the service desk on a timely basis. Holding freight bills until late in the day or turning in large amounts of freight bills to the SourceOne Service Desk at one time may delay outbound truck scheduling and subsequently force your loading out into overtime.
- W. A faxed signature will serve as an original signature and will stand as a fully executed agreement once faxed to and received by SourceOne Events, Inc.

Logistics & Material Handling

What is Logistics?

The process of picking up your shipment from your location (home, office, warehouse, or other), then transporting your shipment from your location to destination (advance warehouse dock or facility dock of your event), and also the process of returning your shipment back to your location after the close of the show. It is separate from Material Handling.

You may use any carrier you wish, however, if you use SourceOne Events Logistics you can save 10% on your Material Handling.

What is Material Handling?

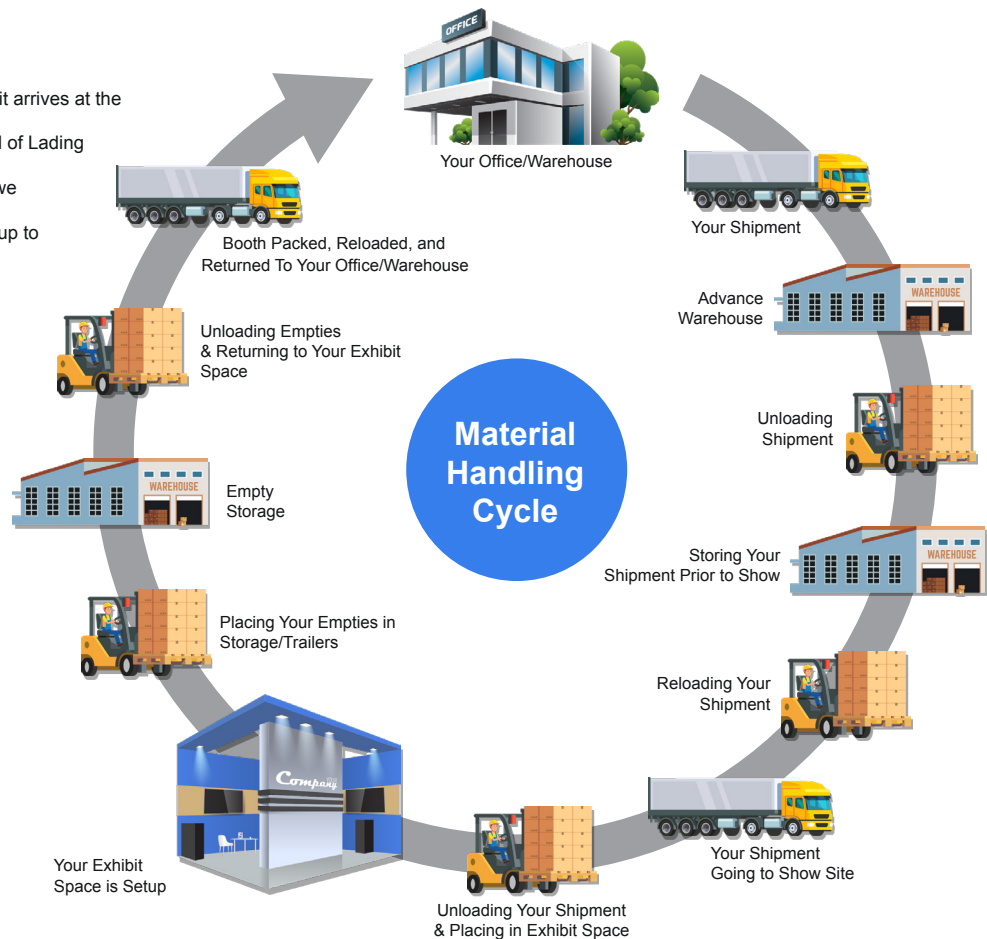

The process of receiving your shipment from your carrier and managing your shipment through the event cycle. It is a standard trade show process and is a chargeable fee typically based on the weight of your shipment. Material handling is often referred to as Drayage, which means the same thing. Material handling, or drayage, should not be confused with the cost to transport your exhibit material to and from the convention or event.

Note: The two options for shipping freight are either to the advance warehouse or, if applicable, direct to showsite.

Don't forget to add Material Handling into your trade show budget!

Material Handling Process

- Unloading your exhibit materials from your carrier once it arrives at the receiving dock.
- Shipment is inspected for any damage and noted on Bill of Lading and photos are taken.
- Shipment is added to manifest and exhibitor is notified we received it.
- Exhibit Materials can be stored in Advance Warehouse up to 30 days prior to event.
- Transporting your shipment to your exhibit space.
- Removing empty shipping containers (boxes, on-site crates, and skids/pallets) from your booth.
- Temporarily storing empty containers.
- Once show is over, returning empty containers back to your booth space.
- Transferring the freight back to loading dock.
- Loading the items into your carrier's truck for return shipping to final destination.

How do I keep Material Handling charges low?

Consolidate Your Shipments

Skid as many items as possible so everything arrives all together. Each shipment that arrives on separate days will be charged the minimum charge each day shipments arrive.

Labor to then unload freight and deliver to booth, picking up your empty containers, storing, returning empty shipping containers, and reloading freight onto carrier for return to your specified destination from exhibit site.

Direct Shipments to Show Site: Rates include unloading freight and delivery to your booth location. Once your booth is setup our labor will pick up your empty containers, store them, return empty shipping containers, and reload freight onto carrier for return to your specified destination from exhibit site.

Type of Shipment

Crated Material: This type of shipment is either skidded or in any type of shipping container. This shipment can be loaded or unloaded at the dock and requires no additional handling.

Uncrated Material: This type of shipment is either shipped loose, pad-wrapped, and/or un-skidded materials or machinery. This shipment needs extra labor and equipment to handle. Typically this shipment comes direct to show site rather than to the advance warehouse.

Special Handling Material: This type of shipment is delivered by a carrier which requires additional handling, such as ground unloading, side door unloading, constricted space unloading, designated piece unloading, or stacked shipments. UPS, DHL, and Fedex are included in this category due to their delivery procedures. If your freight is too tall to fit through the show location's dock, doors, or elevators, and SourceOne Events has to break down your materials down then additional fees may apply.

Small Package: A small package shipment is a shipment totaling any number of pieces with a combined weight below 30 lbs. that is received on the same day, from the same shipper, and delivered by the same carrier.

Shipment Surcharges

Late Shipments: A 30% surcharge will apply to shipments not arriving within the published discount pricing deadline date for advance warehouse or arriving on Show Site after the show has opened.

Off-Target Delivery/Pickups Direct to Show Site Surcharge: A flat rate per CWT will apply to shipments; see following page Material Handling Rates. This applies to targeted shows (exhibitors who received/requested a Targeted Date/Time), a surcharge of 30% will apply if shipment is not delivered/picked up or carrier has not checked in during assigned target date/time.

On-site Empty Storage: A charge per crate, skid, or carton applies when SourceOne Events handles the storage and return of empties from a shipment not received by SourceOne Events and therefore not subject to material handling charges.

Please Note: All exhibitors must adhere to the Fire Regulations regarding the storage of empty containers behind booth back wall drape which is strictly prohibited and is outlined under the Fire Regulations page in the **Rules and Regulations Section** of this exhibitor manual.

Warehouse Storage: Shipments arriving at the warehouse more than 30 days before the last receiving date will incur storage fees. Transportation of freight to the warehouse after the show at the exhibitor's request or freight that was forced off of the show floor incurs "return to warehouse" (RTW) fees and storage fees.

Return to Warehouse Service Fee: Crated or Skidded (600lb minimum) and Special Handling (400lb minimum) will be accepted at warehouse at exhibitor expense if carrier does not show up during designated move out time. Forced freight will be assessed a surcharge if carrier does not show during designated driver check-in time.

Shrink Wrap and/or Banding Fee: A fee for ½ hour labor to perform the task of shrink wrapping and/or banding your materials. The fees will be charged if you request this service during the move out process for your outbound shipments.

Disposal Fee: A disposal fee, or minimum 1 hour labor will, be charged for all booth materials (booth displays, flooring, etc.) that are left unclaimed after show move-out.

Disposal Fee Rates: \$.75 per lb., minimum \$200.00, plus applicable labor rate based on ST, OT, or DT.

Show Site Over Time:

Published rates are based on Straight Time move-in and move-out. If the move-in or move-out occurs during Overtime the following surcharges will apply.

- Shipments that are moved and/or handled on overtime and/or double time hours will incur a surcharge based on the handling times noted on the receiving/shipping documents. Drivers picking up outbound shipments will be placed in line for loading ONLY after a bill of lading is submitted to the SourceOne Service Desk and the driver has checked in.

Advance Warehouse Over Time:

Published rates are based on Straight Time move-in and move-out. If the move-in or move-out occurs during Overtime the following surcharges will apply.

- Advanced shipments may be received during straight time hours at the warehouse location, however, an overtime/double time surcharge may be applied to an advanced warehouse shipment due to required delivery schedule based on show move-in and move-out hours beyond our control or if freight was received outside of standard hours at the advance warehouse.

Straight Time, Over Time:

- ST/ST: Straight Time, Straight Time rate applies if the shipment is handled Inbound AND Outbound, Monday – Friday between 8:00AM – 4:30PM
- ST/OT: Straight Time, Overtime rate applies if the shipment is handled Inbound OR Outbound, Monday – Friday between 8:00AM – 4:30PM and After 4:30PM Monday – Friday/ All Day Saturday – Sunday and Holidays
- OT/OT: Overtime, Overtime rate applies if the shipment is handled Inbound AND Outbound, After 4:30PM Monday – Friday/All Day Saturday – Sunday and Holidays

Reweigh of Shipments Surcharge: An additional charge per forklift load will be applied to shipments that have to be reweighed at the dock due to the lack of a certified weight ticket, or an incorrect or understated weight on a delivery document.

Reweigh Fee Rate: \$30.00 per forklift load

Marshalling Yard Surcharge: When SourceOne Events must lease space for Marshalling yard operations because no space is provided by the facility, SourceOne Events may charge a one time fee per shipment traveling inbound and/or outbound through the Marshalling yard.

Marshalling Yard Rate: \$50.00 per shipment

Exhibitors who plan to have an exhibit service firm other than the Official Labor Contractor, i.e., SourceOne Events, Inc, supervise their labor, unpack, erect, assemble, dismantle, and/or pack display/equipment **MUST** abide by the following:

What is Material Handling/Drayage?

As the official general service contractor, SourceOne Events is the exclusive provider of material handling/drayage services. The term "drayage" is the moving of exhibit materials from one location to another. Whether you ship to SourceOne Events advance warehouse or directly to show site, your materials still need to get to your booth location.

1. Material handling includes unloading your exhibit material either at warehouse or at show site
2. Storing up to 30 days in advance at the advance warehouse address
3. Delivering to the booth
4. Handling of empty containers to storage
5. Returning empty containers at the close of the show
6. Removing of material from the booth for reloading onto outbound carriers

Material handling or "drayage" should not be confused with the cost to transport your exhibit material to and from the convention or event.

NOTE: You have two options for shipping your freight, you may ship to the warehouse or directly to show site.

What is the definition of "freight"?

Any exhibit materials shipped or delivered to the advance warehouse or directly to show facility via shipping carrier, POV, or delivery truck.

What is the difference between material handling and shipping?

Shipping: The process of picking up your shipment from your location (home, office, warehouse, or other), then transporting your shipment from your location to destination, and also the process of returning your shipment back to your location after the close of the show.

Material Handling/Drayage: Begins at the time your shipment arrives to the docks (please refer to "What is material handling/drayage?" for the full definition).

NOTE: These are 2 different items and are billed separately.

Do I need to order a forklift to unload or reload my freight?

No, please do not order a forklift for unloading/reloading of your materials. However, if you need to have items moved around in your booth because of weight, or specific placement of freight in booth, then in-booth forklift service would be ordered separately.

What does CWT mean?

CWT is an acronym for Century Weight. Your shipment is billed per 100 lbs. with a 200lbs. minimum.

Will there be any additional charges?

Additional charges may apply based on a number of factors such as when the freight arrives at Advance Warehouse, direct to show site, if shipment is special handling vs. crated & skidded, overtime charges/off target, or when the shipment is able to move-in or move-out of show site facility, etc. **Please review the Material Handling Authorization and Material Handling Additional Services forms included in the manual for all applicable fees.**

Can I carry my own materials to my booth?

Usually, an exhibitor may bring in their own materials providing such materials can be hand carried by one person in one trip, without the use of dollies, hand trucks, or any other equipment through the front doors of the facility. Read the Union Rules & Regulations for the specific rules regarding the show/facility.

How is the weight of my shipment determined?

1. Certified weight tickets are used to determine weight which should be attained by all drivers for materials prior to arrival at the advance warehouse or show site dock. SourceOne Events reserves the right to determine weights for all shipments, for which weight tickets are not provided with delivery. When SourceOne Events weighs the shipment, the exhibitor will be charged double for handling.
2. The weight listed on the material handling agreement by your shipping department or staff may determine the weight of the shipment. Once the freight arrives at the advance warehouse or on-site, a SourceOne Events Team member will reweigh shipment to determine actual weight. The exhibitor will be billed at the reweighed weight.

How are rates determined?

Drayage charges are based on a number of factors including labor rates, facility dock access, and the show schedule. These rates vary from city to city.

Small Shipments vs. Large Shipments

Most all General Service Contractors have a minimum charge of 200 lbs. per shipment. It is best to send your freight as one large shipment versus several small shipments. For instance, if you send one 45 lb. and one 55 lb. package separately, you may be charged the minimum on each shipment if they arrive on different days.

If you plan to ship items from various locations, you may want to consolidate them at a central location then forward them to the General Service Contractor's warehouse or show site. However, if you ship your materials in one shipment and the carrier makes multiple deliveries, you will be charged for each delivery to the dock, regardless of whether or not the materials were shipped together as one shipment. This often happens when using carriers such as UPS, FedEx, DHL or any Air Freight Carrier who handles small packages.

Pros to Advance Shipments vs Cons to Direct Shipments

Pros to Advance Shipments to Warehouse:

1. You are able to confirm if materials arrived well in advance to show installation.
2. If there is a problem with the shipment you can address the issue prior to the show.
3. Your materials will be in your booth when you arrive on show site and you can begin installation immediately, saving yourself time and frustration.

Cons to Shipping Direct to Show Site:

1. If there is a problem with your shipment, there is rarely time to resolve the problem prior to show opening.
2. Delayed setup due to drivers delivering your items to the wrong location in a facility.

Should I insure my exhibit prior to shipping?

The answer is YES! It is your responsibility to make sure your freight is insured from the time that it leaves your office until it returns. Add a rider to your existing policy to do this. Check with your insurance carrier for details.

How should my freight be labeled?

- The label should contain the exhibiting company name, the booth number, and the name of the event.
- The specific shipping address for either the warehouse or show site is located on the Show Information Pages – [General Information Section](#).
- Reference shipping labels included in the exhibitor kit located in the [Shipping and Material Handling Section](#).

What can I do with my empty containers and where do they go during the show?

STEP 1. Pick up "Empty Labels" at the SourceOne Events Service Desk. Be sure to know the number of empties you will have and label/priority label each one.

STEP 2. Once the container is completely empty, place a label on each container individually.

STEP 3. When containers are labeled empty they will be picked up periodically and stored in non-accessible storage during the event. **NOTE:** A non-accessible area is an area that is not available during the show.

STEP 4. At the close of the show, the empty containers will be returned to the booth in random order, unless priority labels are preordered, after aisle carpet is removed.

NOTE: Any unlabeled empties will be considered trash

How do I protect my materials after delivered to the show or before pick-up after the show?

1. Avoid listing the contents of crates and cartons on your shipping labels or on the crates and cartons (a label that reads "50" LED color monitor" is an open invitation for thieves).
2. Be sure to have someone remain in your booth during the hectic and heavily populated move-in and move-out times.
3. Never display "one-of-a-kind" items or irreplaceable samples unless someone is present at all times to keep an eye on them.
4. Consider covering your exhibit with some sort of cloth at the close of each day. The psychological deterrent makes it more difficult for people to handle merchandise. Criminals often look for the easy mark first.
5. Never store items in containers marked "Empty".
6. Your exhibit materials should be insured from the time they leave your facility until the time they return. Consult with your insurance agency about adding a rider to your existing policy.

Accessible Storage During Show

Accessible storage service is available at show site for exhibitors to easily access their product samples and literature during show days only. All arrangements for accessible storage must be placed on-site at the SourceOne Service Desk.

The charge for Accessible Storage consists of a daily storage charge plus labor to place in and remove materials from storage. If items are too heavy to deliver to your booth by a pallet jack then a forklift will be required. See Forklift Labor on page 76 for pricing.

When you are ready for your stored materials to be delivered to and/or from your booth, please notify at SourceOne Service Desk.

What is Vehicle/Mobile Spotting?

Spotting is the placement or "dropping" of a vehicle or trailer on the show floor and its subsequent removal from the show floor. The spotting of vehicles is one of the most critical segments of the move-in operation.

Exhibitors with vehicles, self-propelled or pushed, scheduled for display must notify SourceOne Events in writing of such intent and will be subject to spotting fees.

Exhibitors with vehicles as part of their displays must complete and return this form along with the Payment Form to SourceOne Events. A target move-in time for the vehicle(s) will be assigned based upon this information. Any off target or unscheduled vehicle deliveries may be assessed a time and labor surcharge.

Vehicle/Mobile Spotting Fee

\$150.00 per axle charge with a 2 axle minimum for a total of \$300.00 round trip.

Additional requirements, such as towing, will be charged on a time/materials basis.

Example: 1 car comes in and has 2 axles then the charge would be \$300.00 round trip

Rules Regarding Display Vehicles and Spotting Service

1. Batteries must be disconnected and taped.
2. Fuel supply must not exceed 1/4 tank or 5 gallons, whichever is less. It is a good idea to make sure your tank is below the 1/4 mark.
3. Vehicle must be furnished with a locking gas cap or a cap sealed with tape to prevent the escape of vapors.
4. Refueling, or removal of fuel from vehicles, while on the premises is prohibited.
5. Vehicle cannot be turned on, operated or moved during show hours.
6. All spotting service orders are subject to SourceOne's Payment Policy and Limits of Liability.
7. Key(s) should be available to Show Management and/or SourceOne Events at all times.
8. This is for Display Vehicles ONLY and does not apply to any contents contained within the vehicle.
9. SourceOne Events will determine whether a vehicle meets the qualifications as a Display Vehicle, as intended on this form. If criteria is not met, standard material handling rates apply.
10. Plastic Floor Covering is required under Display vehicles to protect Facilities flooring.

Rules & Regulations

Union Information

To assist in the planning stages of your participation in Chicago, we have listed all the unions labor guidelines that are required for certain aspects of your exhibit handling. There are six major unions that have jurisdiction over trade shows in the Chicagoland area. The following guidelines will help you in preparing your exhibit to conform to union jurisdiction and adherence to them can save you a substantial amount of money.

Teamsters Union

Teamsters handle all freight inside the exhibit hall. They unload all trucks or vehicles, deliver the materials to your booth, and remove and reload materials at the close of the show. **NO BELLMEN ARE ALLOWED ON EXHIBIT FLOOR. BELLMEN CAN DELIVERY OUTSIDE SHOW ENTRANCE AND TEAMSTERS WILL DELIVER FREIGHT AT EXHIBITORS EXPENSE TO EXHIBITORS BOOTH AREA.**

Machinery Movers & Riggers Union

Riggers handle all machinery. This includes the unloading of the machines from the trucks, moving the materials to your booth, and a one-time spotting of display ready equipment, which the exhibitor must supervise at the time of unloading. Riggers also remove and re-skid machines, uncrate machines, and re-spot machines in the booth if needed. This service must be ordered as needed, at exhibitor's expense.

Carpenters Union

Carpenters handle the erection and dismantling of display and exhibit booths. This includes all display work with the exception of machinery, (signs & lighted headers), unless the sign or header is a permanently attached part of the display. Carpenters also re-crate machines for outbound loading. Millwrights, a division of the carpenters union, handle the assembly and the leveling of machinery, as well as the attachment of all guards and shields.

Decorators Unions

Decorators handle the installation of signs, drape background, table skirting, and all other items of decorative nature that must be done after a display background is erected.

Electrical Union

Electricians handle all electrical work, which includes supplying the power lines to your booth, connecting equipment to the proper outlets, installing signs or headers that are lighted, unless they are permanently attached to the exhibit back wall, and the running of cable within the exhibitor's booth.

Plumbers Union

Plumbers handle all plumbing work such as compressed air, water/drain, or natural gas.

What an Exhibitor Can Do Without Unions in the Chicagoland Area

Exhibitors may perform several functions as long as they are full-time employee of the exhibiting company. Listed below are these functions:

1. Exhibitors may hand carry small packages, pop-up displays and desktop computer equipment, provided it can be done without the use of a fork-lift, flat-cart or dolly, only from a designated parking area.
2. Exhibitors may set up and dismantle their own booth displays provided their exhibit space is 100 square feet (e.g. 10'x10') in size and does not require power tools. This needs to be accomplished by one person and in less than 1/2 hour.
3. Exhibitors may unpack, re-pack and set out their own product line within the booth for display purposes, provided the product is not machinery.
4. Exhibitors may affix clamp-on lights to the top of their booth displays provided no tools, ladders, chairs or furniture are required to do so. This applies to booths up to 100 square feet in size or less only.
5. Exhibitors may calibrate and do repair work on internal circuit boards, do interconnecting of peripheral computer equipment, provided cable does not exceed 10' in length, and do the programming of machinery.
6. Exhibitors may do the connection of lighting, video equipment and light bulbs to an electrical outlet when the outlet has been ordered by the exhibitor.
7. Exhibitors may hang up to ten small pictures, graphics, logos, etc. on to a back wall display when such items are designed to be affixed by pre-set Velcro strips, permanently mounted hooks, or snaps.
8. Exhibitors may skirt tables provided they do so with their own custom fit skirts, without the use of staples, Velcro or snaps.
9. Video taping may be done by exhibitors within the confines of their own booths using equipment owned or rented by the exhibiting company, provided such taping does not conflict with show management regulations, and does not require tools or ladders.

Gratuities/Tipping

SourceOne Events requests that exhibitors do not tip our employees. They are paid at an excellent wage scale denoting a professional stature, and we feel that tipping is not necessary. This applies to all SourceOne Events employees. Any request for tip should be brought to the attention of a SourceOne Events representative at the SourceOne Service Desk or concerns may be directed to the attention of the Manager at the local office address.

Safety

Safety of everyone working in the hall is of our utmost concern at all times. Standing on chairs, tables, or other rental equipment is prohibited. This equipment is not engineered to support your weight. SourceOne Events cannot be responsible for injuries or falls caused by the improper use of this equipment. If assistance is required in assembling your booth, please order labor in the Installation and Removal Labor on page 72 in the Exhibitor Kit and the necessary ladders and/or tools will be provided.

Show Site Work Zone

Customer acknowledges that the show site and surrounding areas are active work zones. Customer, its agents, employees and representatives are present at their own risk.

Important Note:

- If you encounter any difficulty with any laborer, or if you are not satisfied with the work performed, please bring this to the attention of the SourceOne Service Desk and the appropriate Manager will address any and all issues immediately. Please refrain from voicing complaints directly to labor personnel.
- The person in charge of your exhibit should carefully inspect and sign all work order forms. If there are any questions about any bills, bring the bill to the appropriate Service Desk and discuss it with the person in charge.
- Bellmen are not allowed on the exhibit floor. Bellmen can deliver outside show entrance and teamsters will deliver freight at exhibitors expense to exhibitor booth area.

Exhibitor Safety Guidelines

- Only authorized personnel and employees are allowed on the show floor, all others are prohibited.
- The showsite is an active work zone. Use extreme caution if you are in show areas where forklifts and vehicle traffic are operating during move-in and move-out.
- Stay clear of heavy machinery.
- All exhibitors must set up their displays within their booth boundaries.
- Booths extending into the aisle are subject to Fire Marshal Jurisdiction and an exhibitor may be fined for aisle encroachment.
- Do not enter the dock/yard areas.
- Standing on chairs, tables, or other rental furniture is prohibited. This furniture is not designed to support your standing weight.
- SourceOne Events, Inc. cannot be responsible for injuries, falls, or damage caused by the improper use of rental furniture or equipment. If assistance is required in assembling your booth, please order labor at the SourceOne Service Desk or in advance using the Exhibitor Service Kit
- Wear closed toe shoes.
- Clean up or report spills.
- Keep aisles free and clear of any and all debris.
- Any person involved in moving equipment, supplies, or goods into or out of the venue is prohibited from consuming alcohol or being under the influence of alcohol.
- All work carried out on booths on-site must conform to facility regulations.
- Practice good housekeeping.
- Check electrical cords for damage.
- Protect valuables at show site.
- Report any fires immediately.

If you notice anything unsafe please contact a SourceOne Events Employee immediately.

OSHA regulations prohibit minors from being present in a hazardous work environment. No individuals under the age of 18 are permitted on the show floor at any time. Show sites during move-in and move-out are similar to a construction zone and are considered to be dangerous.

Exhibitor Security Guidelines

- Please do not assume the exhibit hall is secure. Each exhibitor must take responsibility for the security of all the items in his or her booth. SourceOne Events, Inc., Show Management, venue personnel and the security contractor try to guard against theft and damage, but the ultimate burden falls on the exhibitor.
- Avoid listing the contents of crates and cartons on your shipping labels or on the crates and cartons. A label that reads "50" LED color monitor" is an open invitation for thieves.
- Be sure to have someone remain in your booth during the hectic and heavily populated move-in and move-out times.
- Never display "one-of-a-kind" items or irreplaceable samples unless someone is present at all times to keep an eye on them.
- Consider covering your exhibit with some sort of cloth at the close of each day. The psychological deterrent makes it more difficult for people to handle merchandise. Criminals often look for the easy mark first.
- Business tools such as cell phones, laptop computers, recorders, calculators, and give-away items are the things most often stolen. They should be guarded and stored safely at night.
- Thieves will also take personal items such as purses, suit coats, and toolboxes. Do not leave personal items unprotected in your booth.
- Never store items in containers marked "Empty."
- Show management may provide security to prevent entry to the exhibit area by anyone not authorized. This security service does not guarantee exhibitors against loss or stolen items. Nor does it imply an assumption of liability for an exhibitor's property by SourceOne Events, Inc., Show Management, or their agents.
- Your exhibit materials should be insured from the time they leave your facility until the time they return. Consult with your insurance agency about adding a rider to your existing policy.

If you notice anything unusual activity in your booth or a fellow exhibitors, please contact nearby Security or a SourceOne Events Employee immediately.

 = 480 V Three Phase _____ amps

Grid Example:

10' x 10' Booth uses 1 square = 1 foot

20' x 20' Booth uses 1 square = 2 feet

30' x 30' Booth uses 1 square = 3 feet

If you have a custom booth please let us know your dimensions. Custom Booth _____ ft. x _____ ft. use 1 square = _____ ft.

If this grid scale is too small for easy drawing, please return a separate sheet indicating booth layout.

Front Adjacent Booth or Aisle Number: _____

Right Side Adjacent Booth or Aisle Number: _____

Left Side Adjacent Booth or Aisle Number: _____

Back Adjacent Booth or Aisle Number: _____

The following guideline is only an estimate of the actual wattage you need. Always reference the specification sheet or the electrical stamp/label usually located on the bottom of any electrical apparatus. Order one outlet for each piece of equipment to avoid tripping the breaker or power outages during the event.

1000 Watts = 10 Amps of power

100 Watts = 1 Amp

The formula for wattage is voltage x amperage (120 volt x 1 amp = 120 watts)
