

Free career
and higher
education
services for
students
qualifying for
free and
reduced lunch

[Click Here to Apply](#)

To Qualify Students Must:

- Be enrolled in high school.
- Live In the Greater Houston Area.
- Show proof they qualify for free and reduced lunch (screenshot from the school's Learning Management System, like Skyward; official state letter; or a 2021 tax return that meets federal guidelines for approval.)
- Willing to complete a survey before and after rendered services to be used for data purposes only (identifying information will not be used in any way nor given to a third party).
- Have access to the Internet and a device to complete the surveys and to attend a Zoom meeting.

Click on the links for more information used to define qualifications.

Why Are We Offering This?

Education Alliances is a nonprofit startup organization. We seek partnerships and grants to support our mission and provide affordable academic services. Yet these are more readily secured by mature organizations rather than developing ones.

Our strategy is to gather data on the need for our services. Seeing numbers will be impactful. Additionally, it allows us to demonstrate longevity and investment impact.

Qualified students that participate in our data collection will receive the following services at no cost: (1) Career & Personality Profile Assessment; (2) A Zoom meeting with one of our team members to explore the assessment and potential career matches; (3) Identification of postsecondary goals, including the types of higher education to achieve these goals; (4) Recommendations to support the student in achieving their goals.

Additionally, participating students will be prioritized first for eligible services in the future.
