

Textile Art Workshop

for everyone...

Weaving with my soul!

Marcela promotes transformative textile art workshops for the community, that nurture healthy habits and well-being. With reverence for cultural diversity, she seeks to share textile traditions, celebrating the beauty, and wisdom they hold. Through interactive sessions, she imparts her knowledge and expertise to the next generation, ensuring the preservation and evolution of textile techniques. Join us on this exciting journey of exploration, creativity, and skill development in the world of textiles, as we weave together.
