CORE COMPETENCIES

Software Engineering & Custom Development: Tailored digital solutions using modern architecture, DevSecOps practices, and cloud-native tools.
Data Architecture & Integration: End-to-end design and optimization of enterprise data systems and analytics pipelines.
IT, Engineering and Program Management Advisory Services: Strategy and execution support for R&D, prototyping, and complex systems design.
Technical Assessments & Strategic Discovery: Low-risk, insight-driven services including capability assessments, system evaluations, analysis of alternatives (AOAs), and discovery reports to inform modernization, acquisition, and R&D planning efforts.
Training & Capability Development: Delivery of customized training programs for engineering, software acquisition, and digital transformation.

DIFFERENTIATORS

- ✓ Deep technical expertise with over 16 years of experience in Department of Defense.
- ✓ Founder-led engagements with direct access to acquisition expertise and program management leadership.
- ✓ Located in Florida committed to supporting defense innovation and state-level modernization efforts.
- ✓ Flexible, responsive, and goal-driven – ideal for projects requiring tailored, high-impact solutions.

TARGET CLIENTS

- ❖ U.S. Department of Defense (DoD), particularly science & technology and prototyping offices.
- ❖ Florida state agencies focused on digital modernization, data analytics, and system transformation.
- ❖ Prime contractors seeking small business partners with systems engineering and software expertise.

PAST PERFORMANCE

As a newly launched firm, Turnkey Federal leverages its founder's extensive background in defense sector engineering and acquisition. With experience advising on prototyping, systems architecture, and IT modernization, Turnkey is prepared to deliver exceptional results as a trusted small business partner.
