Version 6.0 – 3/23/2022

AFV Educate, a not-for-profit 501c3 training organization, offers a wide selection of training targeting the needs of the alternative fuel and alternative fuel vehicle community. Presented by industry-leading instructors, these courses represent current and cutting-edge educational content to best support the mission of the United States in promoting a cleaner environment.

AFV Educate is an industry leader in automotive, first responder, second responder, and professional development training solutions. AFV Educate's staff of experienced training developers and instructors have over 20 years of combined experience in supporting alternative fuel vehicles, first responders, second responders, and automotive technicians.

AFV Educate's first and second responder classes are available in both English and Spanish. For Spanish automotive technician training, please get in touch with us for availability.
