

Conroe Texas Stake

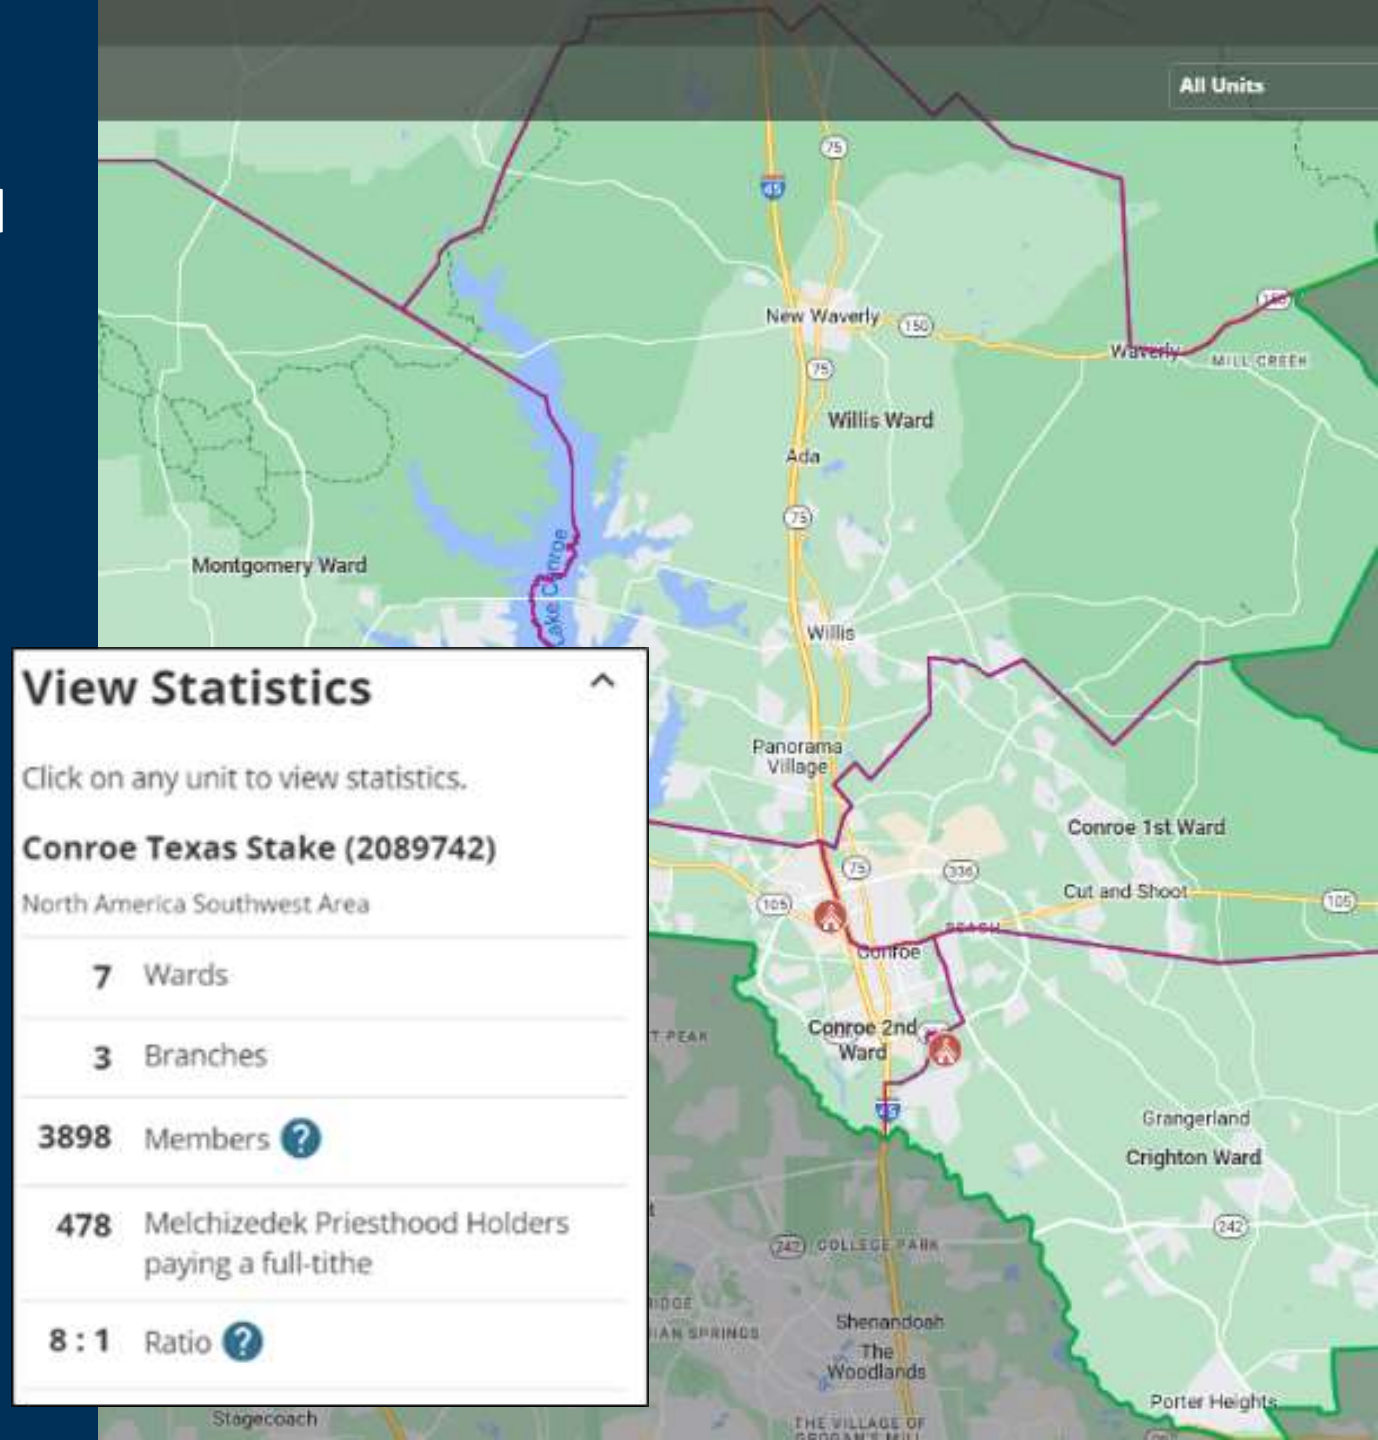

Boundary Adjustment

December 2023

Affordable home developments, improved highway access and greater quality of life are driving significant growth in the Conroe Stake through new move-ins . . . Q1-2019 membership was 3122, an addition of 776 members in 4 years

The Willis Ward was created in May 2021 through a division of Conroe 2nd and southern Huntsville Ward families

The May 2021 changes were made along school district boundaries as closely as possible – creating some large units

“With the ever-increasing number of converts [move-ins], we must make an increasingly substantial effort to assist them as they find their way. Every one of them needs three things: a friend, a responsibility, and nurturing with ‘the good word of God’ (Moro. 6:4). It is our duty and opportunity to provide these things.”

President Gordon B. Hinkley

Every Convert Is Precious, February 1999

Additional Background

The closest building to Montgomery and Willis Wards is on Wilson Road in Conroe, which currently houses these two units, the Conroe 3rd Ward (Spanish) and the stake FamilySearch Center

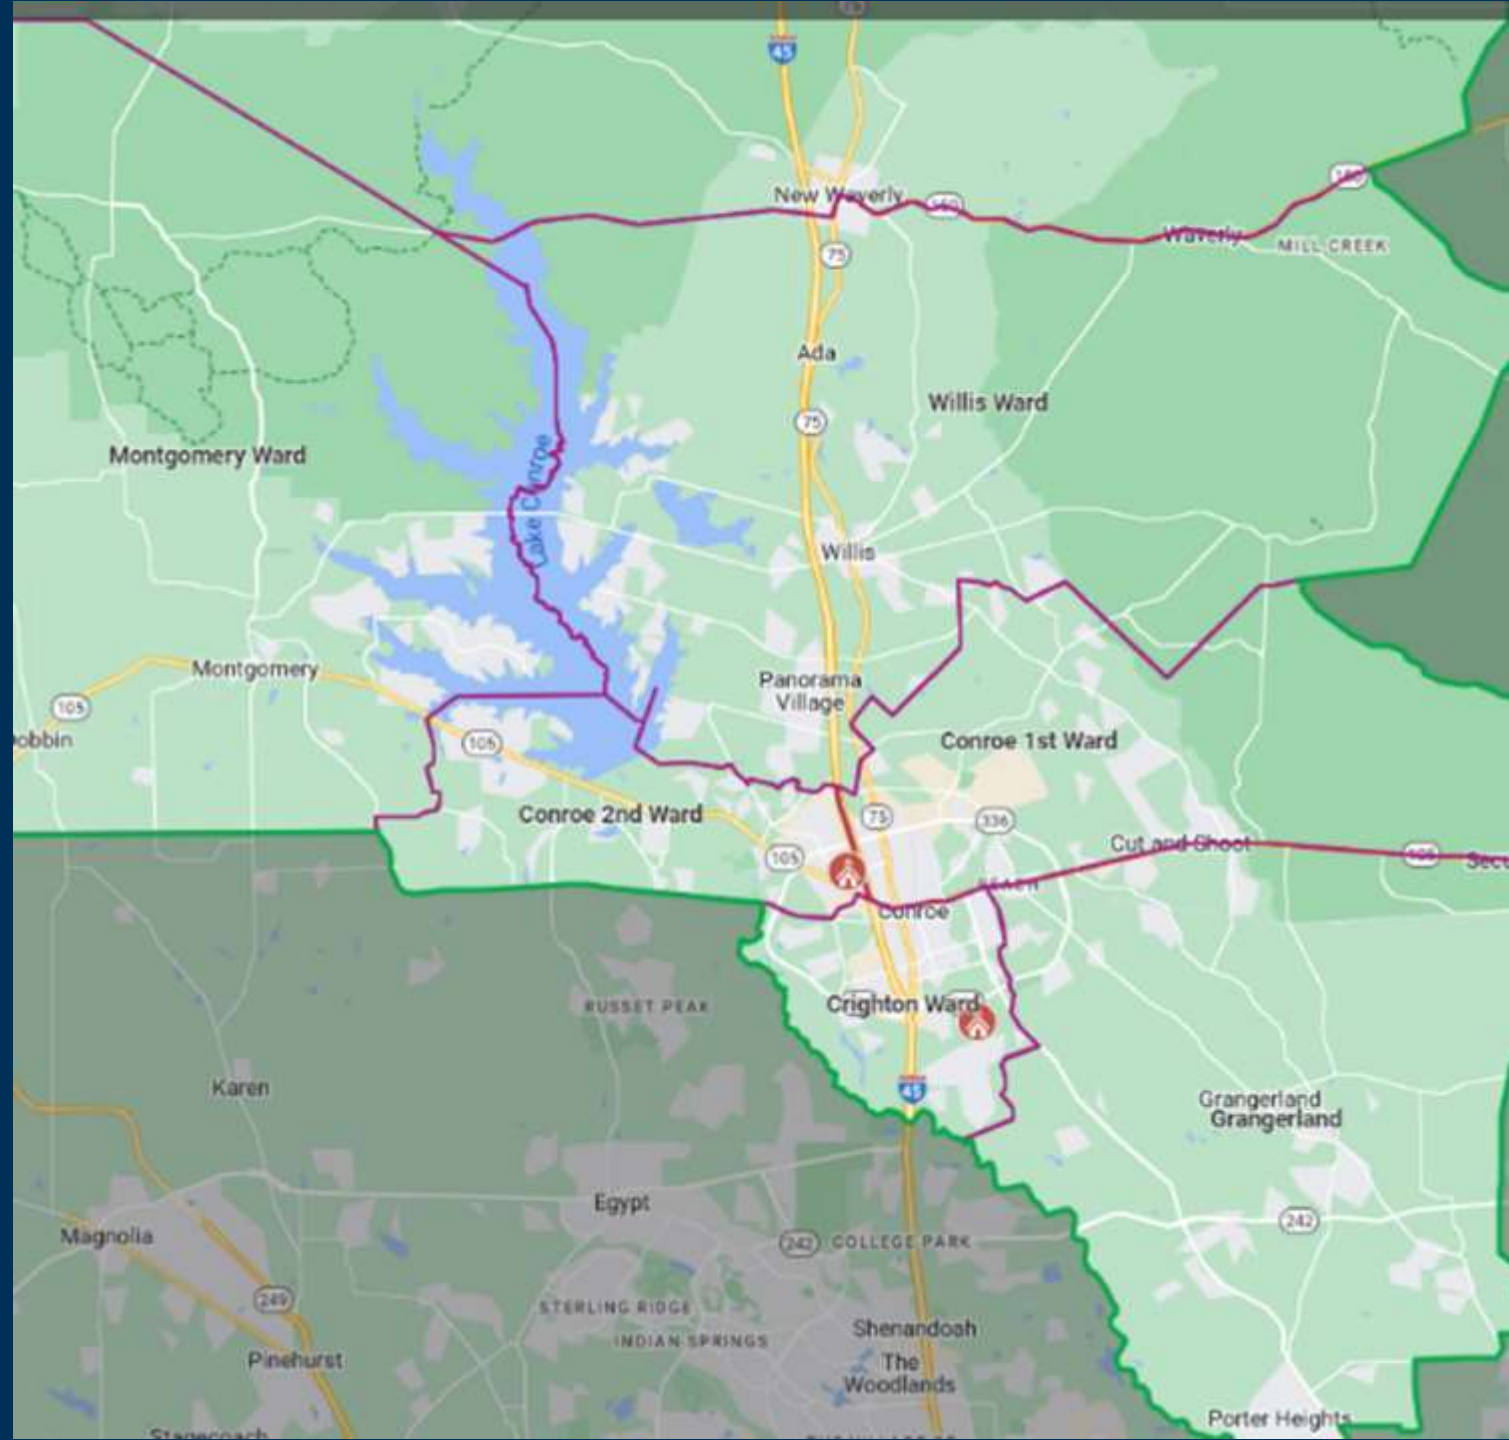

This building, constructed in 1981, is not well suited for large membership units due to the small chapel and size restricted teaching stations available for 2nd hour meetings

Adjusting boundaries of the 5 units attending Conroe buildings appears to provide for better sized units for this building when divided into 6 units
