### President's Message

One of the ongoing goals of our guild is to share our love of basketry with others and perpetuate the historic tradition of basket weaving. Guild secretary Stephanie Hamel did just that with her article "Baskets on a Blustery Day" published in the Jan/Feb issue of Pennsylvania Magazine. If you haven't read the article and seen the photos, be sure to get your copy.

CPBWG will join other basket weavers all over the world to "Sow the Seeds of Basketry" in our community as part of the first Kids National Basket Day of Weaving spearheaded by Laura Lee Zanger. On June 27<sup>th</sup> CPBWG will offer children, together with an adult family member, the opportunity to weave a basket at either East Berlin or Gravel Hill. Perhaps this will result in more than a finished basket. New connections and a new hobby might be made too!

Do you remember your first basket? Who asked you to try weaving a basket? Who asked you to come to a guild gathering? A fellow art teacher encouraged me to take a basket class with her years ago. Little did I know what would result from that one class. I have been weaving baskets ever since!

CPBWG is made up of friends, sisters, mother-daughter pairs, and mother-son pairs, who share their love of basketry and practice the craft together. We can be ambassadors of basketry. Tell your story. I want to hear it.

Happy Weaving,

~ Sharon

## ***Guild News***

### **Kids National Basket Weaving Day**

CPBWG will participate in the first National Basket Weaving Day for kids this June. We will offer children 10 years and older, who are accompanied by an adult, the opportunity to make a colorful, simple basket. This may be their first time to make a basket. Participants must register in advance, but there is no cost to them.

CPBWG will host workshops in two locations – Gravel Hill and East Berlin.

Jean Foutz assisted by Mary and Erin Morgan will lead the workshop at Gravel Hill. Marilyn Julius assisted by Sharon Schaeffer and Donna Kumpf will lead the workshop at East Berlin. The event needs to be publicized, supply kits made, registration monitored and onsite helpers. If you would like to help in some way let Jean and Marilyn know.

More details will be coming this spring. For now, spread the word to save the date.

### **UFO Update**

Stephanie Hamel and Betsy Mullineaux were the winners of the 2019 UFO prize “kitty”. Seven members were monthly winners of the \$10 guild gift certificate. Eight members completed a UFO each month of the challenge. Many beautiful UFO baskets were made during the year.

### **2020 UFO Challenge**

It's not too late to sign up for this year's UFO challenge. Fifteen members have already signed up. Some have even sent digital photos of their first finished UFO basket of the year. The first basket of the year is due March 14<sup>th</sup>.

The cost is \$8. Registration forms can be mailed to Sharon Schaeffer 1643 Old Taneytown Road, Westminster, MD 21158.

If you have orders shipped to your residence, those shipments can add as much as \$10.00 (per box) to your shipping costs because it is a residential delivery. This applies to UPS, FedEx and USPS ground shipments.

A great way to save fees associated with a residential delivery is to have the package delivered to a commercial address near your location.

**A commercial address is any address that does not have a residence located or associated with that address. Commercial locations can be hardware stores, UPS and FedEx locations, grocery stores, gas stations or any business located near you that is willing to accept a shipment from UPS or FedEx. ### **Saturday - Wild Basketry Sampler: Twining and Twill with Wild Harvested Plants**

**Full Day Class**

**5" w x 7" h (everyone's will vary in size and shape) - All levels. - \$90.00**

This is an excellent introduction to the joys and nuances of weaving with wild harvested plant materials. In this sampler basket we will use twining, triple twining, and a twill weave to complete a basket using a wide variety of wild harvested plant materials. This includes elm bark, akebia vine,

basswood fiber, cattail, iris, and more. The base stakes will be prepared elm bark, weavers will be a mix of different materials and we will finish with a lashed or a braided rim. Everyone's basket will turn out to be completely unique depending on the materials, weaves pattern, and shape they choose. There will be a focus on discussing harvesting and on doing some hands-on preparation of the various materials.

**Tools student should bring:** scissors, needle nosed pliers (long, thin ones are best), packing tool, measuring tape or ruler, pencil, a small towel, several small clips, and any other tools you like to have.

**\*\*Due to the intricacies of preparing each individual natural material I am not able to provide kits for this project. \*\***

## Sunday - Diagonal Plaited Cattail Basket

Great for beginning or intermediate weavers and those who are interested in learning about wild harvested materials. Those familiar with diagonal plaiting or advanced weavers may finish early.

**Tools student should bring:** scissors, clothes pins or small clips (without any kind of teeth), measuring tape or ruler, pencil.

Kits can be available for this one. Please note that soaking and preparing the cattail is nuanced and I will go over it in detail during class. ### President's Message

Our lives have changed dramatically since the beginning of the year. I hope this newsletter finds you and your loved ones healthy and safe during these difficult and uncertain days. February marked our last guild gathering. Sadly we had to cancel the March guild weave, the April Spring Retreat, and the May weaving days with Katie Grove. The June dye party is cancelled and the National Kids Weaving Day has been postponed to June 2021.

At this time we turn to basket weaving to busy our hands, settle our minds and find comfort in the familiar. UFO's are being completed by our members and new baskets started. Thank you Pam Wilson for sharing the directions for the waxed linen project for members to try. Directions for weaving a Josephine Knot Hen basket are included in the newsletter for anyone who wants to make one. If you have favorite basket pattern you would like to share, let me know and we will pass it onto our members.

We all want to gather to weave as evidenced by the early Odyssey signups. The Odyssey committee will keep members updated on the status of this event. I just ask that you remain flexible and understand that our guild calendar of events may continue to be revised. While we can't predict the future, I do know that our guild is made up of caring, kind basket weavers who will continue to move forward and support our craft and each other.

Happy Weaving Until We Meet Again,

~ Sharon

½" flat reed, natural (spokes and rim)

½" flat oval, natural (rim and handle)

¼" flat reed, natural (weavers and lashing)

#2 sea grass (rim filler)

¼" flat reed, dyed (weavers or accent overlays)

#### Directions:

1. From the ½" flat reed, cut 10 spokes, each 18". Lightly mark centers.
2. Lay out 5 spokes horizontally. Insert remaining five spokes vertically in an over/under pattern, matching centers.
3. Square base to 4". Upset spokes.
4. Begin start/stop weaving with ¼" flat reed. Weave 13 rows of start/stop weaving. The 13<sup>th</sup> row is your rim row. Rows 6-8 can be woven with dyed reed if desired.
5. Cut and tuck all spokes.
6. From the ½" flat oval, cut a handle piece approximately 20", or shorter. Insert one end into your weaving along the center spoke, on one side of your basket. Gently insert the other end along the center spoke on the opposite side. Using a small screwdriver work the handle under your weaving until it is the desired height. (you might need to cut it shorter) You may use a dab of glue to hold the handle in place.
7. Rim with ½" flat reed for inside rim, and ½" flat oval reed for outside rim, seagrass for rim filler. Lash with ¼" flat reed.
8. Cut small pieces of ¼" dyed reed to add as overlays on two sides. (see picture)

## Josephine Knot Hen Basket

The Josephine Knot is a design that dates back for thousands of years. The unique twist can be found in numerous artistic forms. In this basket the knot is used to form the handle of a hen basket.

**Weaving Level:** Intermediate

**Supplies:**

¼" flat reed

#6 round reed

Assorted reeds, seagrass & weaving materials

### Step 1 – Forming the Josephine Knot

Thoroughly wet the ten pieces of round reed 60 inches long. The reed needs to be pliable to be twisted to form the knot. A Josephine Knot is formed with two sets of five pieces of round reed.

Work on a flat surface to loosely loop the reed as shown. Start with a loop of the five pieces. Keep the top of the loop at the midpoint of the length of reeds.

Loop the remaining 5 pieces and lay it over the first loop. Carefully weave the bundle over and under the first loop to connect the two loops. Check to keep the round reed flat and untwisted in each bundle.

Slowly pull the ends in opposite directions to tighten up the loop.

The knot should measure about 7" and lay flat.

**\*Optional Hint – Use two colors for the spokes.**

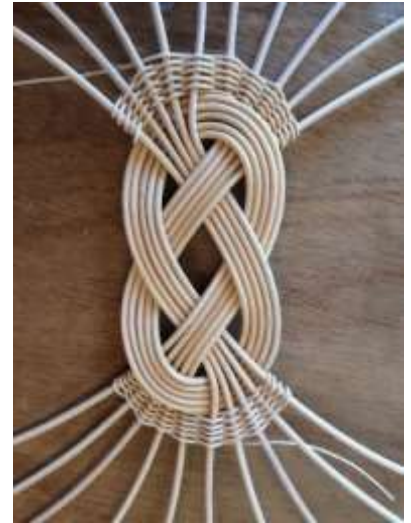

If you use five pieces on one color reed and five pieces of another color of reed it may make it easier to see which section is over and which section is under as you begin to form the Josephine knot.

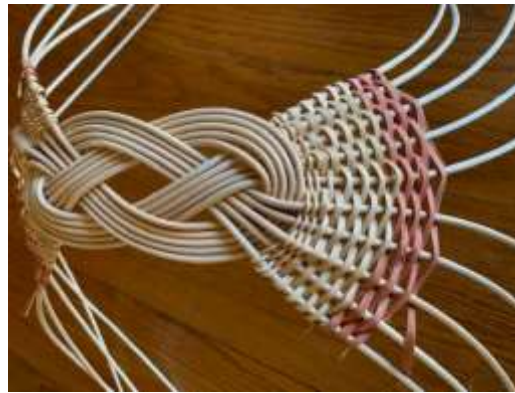

**Step 2 – Separating Ribs**

After adjusting the knot to an even and tight form, separate the pieces on both ends. These pieces will form the basic ribs of the hen basket.

Use a flexible, wet piece of # 2 round reed to weave over / under the spokes. The spaces will spread apart as you weave. Weave about one half an inch on each side of the knot.

Continue to weave, working from one side to another spreading the spokes evenly as you go. Switch to wider flat reed and other materials as you weave out from the knot. No longer weave flat on the table. Hold the form in your lap to encourage it to curve and start to make the hen shape.

### Step 3 – Inserting the Spokes to form Ribs

Taper the ends of the ribs. Shape the ribs to matching ribs on the other side to create the rounded basket shape. Ribs from each side form the belly of the basket by sliding into the weaving of the opposite side.

One side of spokes will slide to the right of the opposite spokes and the other side will slide to the left of the spokes. Be careful not to crisscross the ribs as you insert them.

Weave additional rows in an over/under pattern, gently separating the ribs with each row. As you continue to weave more rows the ribs will be held in place.

Continue to shape the basket form as you weave. Adjust the ribs to create the desired shape. Do not cut the spokes until you are satisfied with the shape.

***\*HINT: When you come to the end of a weaver, splice a new weaver by overlapping the new weaver on top of the old piece for a few ribs. Try to hide the ends as best you can on the inside of the basket.***

## Step 4 – Weaving the Basket

Alternate weaving one side of the basket; then weave the other side of the basket. This keeps the basket balanced as it is woven toward the center. Continue to adjust the ribs to maintain the proper symmetrical shape of the basket. Ideally there should be the same number of rows of weaving on each side of the basket at any given point. Since it is not practical to alternate one row at a time, it becomes necessary to watch closely to avoid an imbalance.

## Step 5 – \* Optional - Inserting Secondary Ribs

If the baskets ribs are spread wide, you may need to insert additional ribs to fill the space.

If you need to add ribs, measure against your basket to determine the approximate length of the rib. Whittle the ends to a point so that they can easily slide in beside an existing rib. Once the secondary ribs are secure with a row of weaving, adjust the ribs as necessary.

## Step 6 – Finishing the Basket

The weaving may fill in at the rim first. Fill in the spaces tightly.

Begin to reverse directions in a decreasing pattern as the two halves fill in.

Continue to weave until the weaving meets in the middle.

Trim any loose weavers.

**ENJOY!**

### President's Message

Seasons are changing. Fall is on its way. I am looking forward to cooler days, pumpkin spice and more activities reopening. Guild events will continue to be modified as we adjust to living through a pandemic. Thank you all for understanding as many of our guild events were cancelled for this year and postponed until 2021. Thank you to Pam Wilson for teaching your postponed class virtually and to those members who were able to participate.

In August the executive board met via Zoom to plan for fall guild events. The usual CPBWG weaving venues are still closed for groups, yet we are eager to gather to weave. Hoping to take advantage of pleasant autumn days, we have reserved the outdoor pavilion at East Berlin community center for Sept 19 and October 17. I invite you to join me from 10am until 2pm to weave on your own individual basket project. It will be great to see each other, while we maintain a safe social distance. There will be no instructor or specific basket taught. This a free event. Don't forget to bring your lunch.

Many of you have been busy weaving and submitting photos of your finished baskets for the UFO challenge. Only October and November baskets remain to be submitted. Some of the recent basket photos are included later in the newsletter for everyone to enjoy.

Happy Weaving Until We Meet Again,

~ Sharon

### President's Message

What a year this has been! Who knew what 2020 had in store for us when we met last January to kick off the New Year? I am thankful for the friendships made through our guild. We have supported each other throughout the year, staying in touch remotely. We have continued to weave baskets to keep our hands busy and our minds calm. Submitted photos of completed UFO baskets brightened my days through spring, summer and fall. Many are showcased in our newsletters.

The weather cooperated in September and October for our guild's fall weaving gatherings held at the outdoor pavilion of the East Berlin Community Center. After months of weaving on our own, it was a joy to see so many of you.

Scheduling guild events remains a challenge as the executive board works on the 2021 guild calendar of events. In the coming months we hope to offer many of the 2020 workshops, baskets, and teachers that were cancelled. I ask your understanding as we may have to continue to modify our plans to gather.

Saturday, January 16<sup>th</sup> is targeted for our first guild workshop of the New Year. Samantha Richards has been able to reserve a room at the Lake Heritage Community Center for this event. Following Covid protocol we must limit our group to 25, wear a mask, and maintain social distancing. (more information about the event is in the newsletter).

Best wishes for a wonderful holiday season and a Happy New Year. See you 2021!

~ Sharon

# JANUARY GUILD WEAVE: Temari Balls

SATURDAY, JANUARY 16, 2021 9:30 am to 3:30pm

Lake Heritage Community Center,  
1000 Heritage Drive  
Gettysburg, PA 17325

## *Learn a new craft to start the New Year!*

Temari is a Japanese folk craft of thread wrapped balls to create colorful, kaleidoscopic patterns.

Learn some basic techniques and create a unique, colorful wrapped ball under the direction of Sharon Schaeffer. Everyone will be successful.

The guild will provide all the supplies for the balls. You only need to bring a pair of scissors, a tape measure and an optional pin cushion.

Participants are asked to bring their own bag lunch and drink. The winning names of the 2020 UFO challenge will be drawn at noon. Two UFO participants will split the 2020 UFO "kitty". You do not have to be present to win.

An optional gift exchange will follow the UFO drawing. If you wish to participate, bring an inexpensive wrapped gift in the \$5-10 range that a basket guild member would enjoy.

The room capacity is **limited to 25** people. You must **RSVP** if you plan to attend. We cannot have more people than allowed. This is not a drop-in event. All participants must wear a mask and socially distance while in the room. Hand sanitizer will be available.

**RSVP to Sharon Schaeffer by January 8, 2021.** Email Sharon at [swschae@gmail.com](mailto:swschae@gmail.com), text her cell at 410-967-4482 or leave a message on her home phone 410-857-5154.

If you have any questions, please contact Sharon.

## 2021 UFO Challenge

**Complete those unfinished baskets you have been avoiding, make a basket from a kit or pattern you want to try, or make one basket to contribute to our July service project.**

Complete baskets to fit your schedule – basically one basket a month. You **do not** have to decide which baskets you will make when you register to participate. One finished basket is due by the monthly guild gatherings held in **March, April, May, June, July, August, October and November**. Members who complete a verified basket are eligible for a **monthly drawing for a \$10 guild gift certificate** good for future guild workshops or Odyssey fees.

A **grand prize** will be drawn at the end of the year from the entries completed. Participants receive one entry for each completed basket. Two names will be drawn to split the winning prize money (all the money from the UFO Challenge sign-up). The more members who sign up, the bigger the “kitty”. The more baskets you complete, the more chances you have to win.

Sharon Schaeffer will continue to serve as the 2021 UFO record keeper. She will record each participant's baskets as they are completed. To verify that you have completed a basket, send a digital photo of your basket to Sharon, either to her cell phone # 410-967-4482 or to [swschae@gmail.com](mailto:swschae@gmail.com).

**Sign up to participate NOW ! The cost to participate is \$8.00.**

Complete the registration form below. Make checks payable to CPBWG. Send your registration and payment to Sharon Schaeffer - 1643 Old Taneytown Road, Westminster, MD 21158.
