Educational and Sports Consulting Services

There are many fantastic combinations of high-quality education and sports performance options in the world, but it is not always easy to find the perfect place to start this promising enriching life experience journey.

The success of this experience will depend on the correct balance between the course, location, size, cost, academics, and athletics. All these aspects must be considered while student-athletes collect documents, practice, and study for the necessary exams regarding the admission process.

These programs are aimed for student-athletes that have the commitment, discipline, effort, and desire to take their academic and athletic performance to the highest level as possible.

College and University

Students that have successfully graduated from high school and university transfer students that are academically and athletically qualified to attend colleges/ universities.

Junior College Program (2 years)

Ideal for student-athletes that have graduated from high school and university transfer students who need to improve their academic and or athletic performance to consequently attempt a transfer to an (4 years) college/ university.

After 2 years, the student receives the diploma and can use the credits to attempt a transfer to an American college/ university. This is an option used by many American families since the Community / Junior Colleges have a much more affordable cost.

Master's Program

Students that have successfully graduated from university and are academically and athletically qualified to attend a master's degree.

Introduction and Steps of Advisory Process

Becoming a student-athlete encompasses much more than just the athlete's sporting qualities and abilities. That is why, in our sports and educational consultancy, students are assisted academically and athletically throughout the process. We use a personalized advisory strategy focused on the specificity of each client.

There are usually two options to consider when deciding how best to be admitted to an educational institution or sport club.

1. Do it yourself. This is not always easy, but it is certainly possible.
2. Hire our sports and educational advisory service. In this case, we would take care of all aspects of the placement process. We will use our experience and networking that will save time and money throughout the entire process and ensuring a great result.

Our service covers all aspects regarding placement and admission to educational institutions. Contacts and correspondence with schools and coaches, scholarship application, guidance on academic exams, and others. A complex process that can take anywhere from 3 months to 12 months from start to finish.

Advisory Stages

- 1 - Client's Interview and academic, athletic, financial analysis and professional and personal goals
- 2 - Signature of the contract (registration fee)
- 3 - Completion of the registration process (candidate profile)
- 4 - Choice of educational institution
 - Creation of a preferential list of institutions based on the client's profile (sports, academic, financial analysis, and professional and personal goals)
- 5 - Registration and selection process
 - Support in completing all forms required for admission to institutions
 - Instructions for preparing highlight video and resume
 - Negotiating sports and academic scholarships with institutions
- 6 - Approval
 - Get ready for pre-season

Consulting Services Content
