## DIFFERENTIATORS

A diverse team of a dozen raptor species of hawk and falcon offer variability of flight styles and specialties allowing us to apply the correct "tool" for every circumstance

Force Multipliers – Combining raptors, K9, visual and acoustic deterrents, physical exclusion, trapping and technology to multiply effectiveness

Purpose built Marine and Aerial Drones operation to complement our services where permissible

Experience protecting sensitive and threatened wildlife and operating around industrial, utility and waterfront locations

Extensive Media, Public Relations and Educational Experience encourages public support, conveying the humane and sustainable nature of this approach

As a small business, we are agile, creative and responsive to client needs
