Key Responsibilities:

- Conduct mental health assessments and develop treatment plans for clients.
- Provide individual, family, and group psychotherapy, implementing goal-specific and measurable treatment plans.
- Offer urgent care and crisis intervention services as needed.
- Consult regularly with psychiatrists on member care to ensure holistic treatment approaches.
- Communicate effectively with Behavioral Health colleagues, Primary Care providers, and other providers to facilitate integrative care.
- Prepare and submit documentation of services within 24 hours of service delivery.
- Participate in staff development meetings and engage in quality of care activities on a regular basis.
- Manage caseload and practice management within departmental guidelines.
- Maintain thorough and confidential records of observations.
- Staff cases monthly as required.
- Perform other related duties as assigned.

Requirements:

- Master's degree in a relevant field of specialty (LCAS, LCMHC, LCSW, LMFT, LMFT-A, LCASA, LCMHC-A, LCSW-A).
- Familiarity with a variety of mental health concepts, practices, and procedures.
- Strong clinical skills and the ability to formulate and implement treatment plans.
- Experience in conducting mental health assessments and delivering psychotherapy services.
- Excellent interpersonal and communication skills to collaborate with multidisciplinary teams.

- Ability to work independently and make sound judgments when planning and accomplishing goals.
- Detail-oriented and able to manage documentation and record-keeping efficiently.
- Flexibility to adapt to changing priorities and caseload demands.
- Must be available to staff cases monthly.
- Contract-based employment
